Circulation

AUTHOR/SUBJECT INDEX TO

VOLUME 81

JANUARY–JUNE 1990

and the following supplements:

Platelet Adhesion and Aggregation Mechanisms: Importance in Acute Cardiovascular Syndromes and Effects of Thromboxane A_2 Antagonism
Attilio Maseri, MD, FRCP, *Guest Editor*
Volume 81, Number 1, January 1990
Pages I-1–I-82 Item No. 73-3085

Measures of Functional Capacity in Patients With Heart Failure
Karlman Wasserman, MD, PhD, *Guest Editor*
Volume 81, Number 1, January 1990
Pages II-1–II-64 Item No. 73-3087

Diastolic Function in Heart Failure: Clinical Approaches to Its Understanding and Treatment
Hubert Pouleur, MD, *Guest Editor*
Volume 81, Number 2, February 1990
Pages III-1–III-158 Item No. 73-3088

New Frontiers in Interventional Cardiology
Kenneth M. Kent, MD, *Guest Editor*
Volume 81, Number 3, March 1990
Pages IV-1–IV-116 Item No. 73-3090

Supplements to Circulation *are published occasionally and for archival purposes may be bound with the regular issue. Supplement page numbers are preceded by a Roman numeral and a hyphen. Supplements are indexed with the regular issue with the exception of the Abstracts Supplement, which is indexed within that supplement.*

Subject Index

Volume 81, January–June 1989

A

A23187
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586

Ablation
Percutaneous Coronary Excimer Laser Angioplasty in Patients With Stable and Unstable Angina Pectoris: Acute Results and Incidence of Restenosis During 6-Month Follow-up, 1849

Abnormal automaticity
Effects of Caffeine and Ryanodine on Delayed Afterdepolarizations and Sustained Rhythmic Activity in 1-Day-Old Myocardial Infarction in the Dog, 1393

Acceleration flow
Value of Acceleration Flows and Regurgitant Jet Direction by Color Doppler Flow Mapping in the Evaluation of Mitral Valve Prolapse, 879

Accessory pathways
Antiarrhythmic Actions of Diltiazem During Experimental Atrioventricular Reentrant Tachycardias: Importance of Use-Dependent Calcium Channel–Blocking Properties, 334

ACE inhibitors
Effects of Benazeprilat on Left Ventricular Systolic and Diastolic Function and Neurohumoral Status in Patients With Ischemic Heart Disease, III-123

[1-^{11}C]Acetate
Validation of [1-^{11}C]Acetate as a Tracer for Noninvasive Assessment of Oxidative Metabolism With Positron Emission Tomography in Normal, Ischemic, Postischemic, and Hyperemic Canine Myocardium, 1594

Acetylcholine
Alteration of Endothelium-Dependent Distribution of Myocardial Blood Flow After Coronary Occlusion and Reperfusion, 1928
Coronary Vasomotor Response to Acetylcholine Relates to Risk Factors for Coronary Artery Disease, 491
Endothelial Modulation of the Coronary Vasculature in Vessels Perfused via Mature Collaterals, 1938
Endothelium-Dependent Dilation of the Coronary Microvasculature Is Impaired in Dilated Cardiomyopathy, 772
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586
Indirect Evidence for Release of Endothelium-Derived Relaxing Factor in Human Forearm Circulation In Vivo: Blunted Response in Essential Hypertension, 1762
Responses of Angiographically Normal Human Coronary Arteries to Intracoronary Injection of Acetylcholine by Age and Segment: Possible Role of Early Coronary Atherosclerosis, 482

Action potential duration
Correlation Between In Vivo Transmembrane Action Potential Durations and Activation-Recovery Intervals From Electrograms: Effects of Interventions That Alter Repolarization Time, 281
Frequency-Dependent Effects of Quinidine on the Ventricular Action Potential and QRS Duration in Humans, 790

Acute closure
Prediction of Acute Closure in Percutaneous Transluminal Coronary Angioplasty, IV-5

Adenosine
Electrophysiological Effects of Adenosine in the Transplanted Human Heart: Evidence of Supersensitivity, 821
Endothelium-Dependent Dilation of the Coronary Microvasculature Is Impaired in Dilated Cardiomyopathy, 772
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586
Role of Adenosine in Pathogenesis of Anginal Pain, 164

Adenosine diphosphate
Antibodies to ADP-ATP Carrier—an Autoantigen in Myocarditis and Dilated Cardiomyopathy—Impair Cardiac Function, 959
Effects of Desmopressin Acetate on Platelet Aggregation, von Willebrand Factor, and Blood Loss After Cardiac Surgery With Extracorporeal Circulation, 872
Endothelial Modulation of the Coronary Vasculature in Vessels Perfused via Mature Collaterals, 1938
Preliminary Assessment of a Novel Thromboxane A_2 Receptor–Blocking Drug, GR32191, in Healthy Subjects, I-53

Adenosine triphosphate
Antibodies to ADP-ATP Carrier—an Autoantigen in Myocarditis and Dilated Cardiomyopathy—Impair Cardiac Function, 959

Adrenal medulla
Is Physiologic Sympathoadrenal Catecholamine Release Exocytotic in Humans? 185

β_1-Adrenergic receptor partial agonist
Improvement of Left Ventricular Contractility and Relaxation With the β_1-Adrenergic Receptor Partial Agonist Xamoterol at Rest and During Exercise in Patients With Postinfarction Left Ventricular Dysfunction: A Placebo-Controlled Randomized Trial, III-99

β_1-Adrenoceptors
Agonist-Induced Desensitization of β-Adrenoceptor Function in Humans: Subtype-Selective Reduction in β_1- or β_2-Adrenoceptor–Mediated Physiological Effects by Xamoterol or Procaterol, 914
Effects of the β_1-Adrenergic Receptor Partial Agonist Xamoterol on Left Ventricular Diastolic Function: An Evaluation After 1–6 Years of Oral Therapy, III-87

β_2-Adrenoceptors
Agonist-Induced Desensitization of β-Adrenoceptor Function in Humans: Subtype-Selective Reduction in β_1- or β_2-Adrenoceptor–Mediated Physiological Effects by Xamoterol or Procaterol, 914

Adventitia
Restenosis After Percutaneous Transluminal Coronary Angioplasty—Anatomic and Pathophysiological Mechanisms: Strategies for Prevention, IV-2

Aerobic exercise
Controlled Trial of Aerobic Exercise in Hypertension, 1560

Age
Responses of Angiographically Normal Human Coronary Arteries to Intracoronary Injection of Acetylcholine by Age and Segment: Possible Role of Early Coronary Atherosclerosis, 482

Aldosterone
Assessment of Renin Dependency of Hypertension With a Dipeptide Renin Inhibitor, 1768

Ambulatory blood pressure monitoring
Circadian Blood Pressure Changes and Left Ventricular Hypertrophy in Essential Hypertension, 528

Ambulatory electrocardiographic monitoring
Silent Ischemia During Daily Life Is an Independent Predictor of Mortality in Stable Angina, 748

Amino acids
Inhibition of Platelet–Vessel Wall Interaction: Platelet Receptors, Monoclonal Antibodies, and Synthetic Peptides, I-35

Aminophylline
Role of Adenosine in Pathogenesis of Anginal Pain, 164

Anaerobic threshold
A Comparison of Methodologies in Detection of the Anaerobic Threshold, II-38
Evaluation of Severity of Heart Failure Using Ventilatory Gas Analysis, II-31

Anaerobic threshold
The Anaerobic Threshold in Chronic Heart Failure: Relation to Blood Lactate, Ventilatory Basis, Reproducibility, and Response to Exercise Training, II-47

Angina
Combined Effects of Nitrates on the Coronary and Peripheral Circulation in Exercise-Induced Ischemia, 1881
Efficacy and Safety of Perhexiline Maleate in Refractory Angina: A Double-Blind Placebo-Controlled Clinical Trial of a Novel Antianginal Agent, 1260
Role of Adenosine in Pathogenesis of Anginal Pain, 164

Angina pectoris
Chest Pain and Coronary Heart Disease Mortality Among Older Men and Women in Three Communities, 437
Effects of Long-term Treatment With Calcium Antagonists on Left Ventricular Diastolic Function in Stable Angina and Heart Failure, III-130
Percutaneous Coronary Excimer Laser Angioplasty in Patients With Stable and Unstable Angina Pectoris: Acute Results and Incidence of Restenosis During 6-Month Follow-up, 1849
Prostaglandin I_2 Half-life Regulated by High Density Lipoprotein Is Decreased in Acute Myocardial Infarction and Unstable Angina Pectoris, 1784
The Complement System in Ischemic Heart Disease, 156
Unstable Angina Pectoris: Platelet Behavior and Prognosis in Progressive Angina and Intermediate Coronary Syndrome, I-16

Angiography
Decreased Magnitude of Heart Rate Spectral Components in Coronary Artery Disease: Its Relation to Angiographic Severity, 1217
Detection of Dissection of the Aortic Intima and Media After Angioplasty of Coarctation of the Aorta: An Angiographic, Computer Tomographic, and Echocardiographic Comparative Study, 805

Angioplasty
Computerized Tabulation of Cine Coronary Angiograms: Its Implication for Results of Randomized Trials, 1992
Coronary Venous Synchronized Retroperfusion During Percutaneous Transluminal Angioplasty of Left Anterior Descending Coronary Artery, IV-35
Fluorescence-Guided Laser-Assisted Balloon Angioplasty in Patients With Femoropopliteal Occlusions, 143
Intracoronary Stenting During Percutaneous Transluminal Coronary Angioplasty, IV-92
Laser Balloon Angioplasty: A New Approach to Abrupt Coronary Occlusion and Chronic Restenosis, IV-101
Long-term Outcome of Patients After Percutaneous Transluminal Coronary Angioplasty, IV-9
Myocardial Dysfunction During Percutaneous Transluminal Coronary Angioplasty, IV-14
Persistent Dysfunction of Regenerated Endothelium After Balloon Angioplasty of Rabbit Iliac Artery, 1667
Quantitative and Qualitative ST Segment Monitoring During and After Percutaneous Transluminal Coronary Angioplasty, IV-20
Reversible Segmental Left Ventricular Dysfunction After Coronary Angioplasty, 1210
Transvenous Atrial Septal Defect Occlusion in Piglets With a "Buttoned" Double-Disk Device, 312
Trapidil in Preventing Restenosis After Balloon Angioplasty in the Atherosclerotic Rabbit, 1089
Vascular Stenting in Normal and Atherosclerotic Rabbits: Studies of the Intravascular Endoprosthesis of Titanium-Nickel–Alloy, 667

Angiotensin converting enzyme inhibitors
Beneficial Effects of Captopril in Acute Coxsackievirus B_3 Murine Myocarditis, 1039
Ventricular Remodeling After Myocardial Infarction: Experimental Observations and Clinical Implications, 1161

Angiotensin II
Physiological and Immunopathological Consequences of Active Immunization of Spontaneously Hypertensive and Normotensive Rats Against Murine Renin, 1899

Anisotropy
Double-Wave Reentry As a Mechanism of Acceleration of Ventricular Tachycardia, 1633

Antiarrhythmic agents
Antiarrhythmic Actions of Diltiazem During Experimental Atrioventricular Reentrant Tachycardias: Importance of Use-Dependent Calcium Channel–Blocking Properties, 334
Comparative Hemodynamic Effects of Procainamide, Tocainide, and Encainide in Severe Chronic Heart Failure, 860
Frequency-Dependent Effects of Quinidine on the Ventricular Action Potential and QRS Duration in Humans, 790
Paradoxical Effects of Exercise on the QT Interval in Patients With Polymorphic Ventricular Tachycardia Receiving Type Ia Antiarrhythmic Agents, 14

Antibodies
Conjugation to Antifibrin Fab' Enhances Fibrinolytic Potency of Single-Chain Urokinase Plasminogen Activator, 1974
Treatment of 150 Cases of Life-Threatening Digitalis Intoxication With Digoxin-Specific Fab Antibody Fragments: Final Report of a Multicenter Study, 1744

Antimyosin
Dual Isotope Thallium and Indium Antimyosin SPECT Imaging to Identify Acute Infarct Patients at Further Ischemic Risk, 37

Antisera
Diminished β-Adrenergic Receptor Responsiveness and Cardiac Dilation in Hearts of Myopathic Syrian Hamsters (BIO 53.58) Are Associated With a Functional Abnormality of the G Stimulatory Protein, 1341

Aorta
Detection of Dissection of the Aortic Intima and Media After Angioplasty of Coarctation of the Aorta: An Angiographic, Computer Tomographic, and Echocardiographic Comparative Study, 805
Detrimental Sequelae on the Hemodynamics of the Upper Left Limb After Subclavian Flap Angioplasty in Infancy, 996
Dissociation of End Systole From End Ejection in Patients With Long-term Mitral Regurgitation, 1277
Is Standardization of Left Ventricular Chamber Elastance Necessary? 1826

Aortocoronary bypass
Effects of Desmopressin Acetate on Platelet Aggregation, von Willebrand Factor, and Blood Loss After Cardiac Surgery With Extracorporeal Circulation, 872

Apolipoproteins
Body Fat Distribution and Male/Female Differences in Lipids and Lipoproteins, 1498
Prediction of Angiographic Change in Native Human Coronary Arteries and Aortocoronary Bypass Grafts: Lipid and Nonlipid Factors, 470
Prostaglandin I_2 Half-life Regulated by High Density Lipoprotein Is Decreased in Acute Myocardial Infarction and Unstable Angina Pectoris, 1784

Argatroban
Prevention of Platelet-Rich Arterial Thrombosis by Selective Thrombin Inhibition, 219

Arrhythmias
Conduction Velocity Depression and Drug-Induced Ventricular Tachyarrhythmias: Effects of Lidocaine in the Intact Canine Heart, 1024

Decreased Magnitude of Heart Rate Spectral Components in Coronary Artery Disease: Its Relation to Angiographic Severity, 1217
Doppler Studies of Vena Cava Flows in Human Fetuses: Insights Into Normal and Abnormal Cardiac Physiology, 498
Flunarizine Allows Differentiation Between Mechanisms of Arrhythmias in the Intact Heart, 343
Modification of Sinus Node Function by Epicardial Laser Irradiation in Dogs, 350
Resetting of Ventricular Tachycardia by Single Extrastimuli: Relation to Slow Conduction Within the Reentrant Circuit, 1507
Stretch-Induced Arrhythmias in the Isolated Canine Ventricle: Evidence for the Importance of Mechanoelectrical Feedback, 1094
Transcoronary Chemical Ablation of Atrioventricular Conduction, 757

Arterial baroreflexes
Early Alterations of the Baroreceptor Control of Heart Rate in Patients With Acute Myocardial Infarction, 939

Atriopulmonary anastomosis
Outcome After a "Perfect" Fontan Operation, 1520

Aspirin
Biosynthesis and Pharmacological Modulation of Thromboxane in Humans, I-12
Pathogenetic Components of Acute Ischemic Syndromes: Focus on Acute Ischemic Stimuli, I-1
Role of Platelets and Antiplatelet Agents in Cerebrovascular Disease: Clues From Trials, I-20

Asymptomatic ischemic heart disease
Resting Electrocardiographic Abnormalities Suggestive of Asymptomatic Ischemic Heart Disease Associated With Non–Insulin-Dependent Diabetes Mellitus in a Defined Population, 899

Asymptomatic volunteers
Prevalence and Prognostic Significance of Exercise-Induced Silent Myocardial Ischemia Detected by Thallium Scintigraphy and Electrocardiography in Asymptomatic Volunteers, 428

Asynchronous left ventricle
Alterations in Left Ventricular Diastolic Function in Chronic Ischemic Heart Failure: Assessment by Radionuclide Angiography, III-71
Effect of Asynchrony on Left Ventricular Relaxation, III-41

Atherectomy
Directional Atherectomy: New Approaches for Treatment of Obstructive Coronary and Peripheral Vascular Disease, IV-79

Atheroma
Autoradiographic Mapping of Calcitonin Gene-Related Peptide Receptors in Human and Guinea Pig Hearts, 741

Atherosclerosis
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586
Estrogen Modulates Responses of Atherosclerotic Coronary Arteries, 1680
Lipoprotein and Oxygen Transport Alterations in Passive Smoking Preadolescent Children: The MCV Twin Study, 586
Percutaneous Coronary Excimer Laser Angioplasty in Patients With Stable and Unstable Angina Pectoris: Acute Results and Incidence of Restenosis During 6-Month Follow-up, 1849
Platelets, Blood Flow, and the Vessel Wall, I-24
Prediction of Angiographic Change in Native Human Coronary Arteries and Aortocoronary Bypass Grafts: Lipid and Nonlipid Factors, 470
Responses of Angiographically Normal Human Coronary Arteries to Intracoronary Injection of Acetylcholine by Age and Segment: Possible Role of Early Coronary Atherosclerosis, 482
Restenosis After Percutaneous Transluminal Coronary Angioplasty—Anatomic and Pathophysiological Mechanisms: Strategies for Prevention, IV-2
Vascular Stenting in Normal and Atherosclerotic Rabbits: Studies of the Intravascular Endoprosthesis of Titanium-Nickel–Alloy, 667

ATPase
Carotid Sinus Baroreceptor Sensitivity in Experimental Heart Failure, 1959

Atria
Catheter Ablation of the Atrial Myocardium in Human Type I Atrial Flutter, 762
Importance of Preexcited QRS Morphology During Induced Atrial Fibrillation to the Diagnosis and Localization of Multiple Accessory Pathways, 578
Left-to-Right Atrial Shunting After Percutaneous Mitral Valvuloplasty: Incidence and Long-term Hemodynamic Follow-up, 1190
Transcoronary Chemical Ablation of Atrioventricular Conduction, 757

Atrioventricular block
Sudden Death After Repair of Double-Outlet Right Ventricle, 128
Transcoronary Chemical Ablation of Atrioventricular Conduction, 757

Atrioventricular connection
Outcome After a "Perfect" Fontan Operation, 1520

Atropine
Effects of Resting Vagal Tone on Accessory Atrioventricular Connections, 86

Aurintricarboxylic acid
Aurintricarboxylic Acid in a Canine Model of Coronary Artery Thrombosis, 1106

Autoimmunity
Antibodies to ADP-ATP Carrier—an Autoantigen in Myocarditis and Dilated Cardiomyopathy—Impair Cardiac Function, 959
Physiological and Immunopathological Consequences of Active Immunization of Spontaneously Hypertensive and Normotensive Rats Against Murine Renin, 1899

Automatic defibrillators
Transvenous Defibrillation in Humans via the Coronary Sinus, 1252

Automatic implantable cardioverter/defibrillator
An Analysis of the Cost Effectiveness of the Implantable Defibrillator, 91
Automatic Implantable Cardioverter/Defibrillator Discharges and Acute Myocardial Injury, 1482
Effect of Duration of Ventricular Fibrillation on Defibrillation Efficacy in Humans, 1477
Effect of Epicardial Patch Electrodes on Transthoracic Defibrillation, 1409

Autonomic function
Autonomic Function in Hypertension: Are There Racial Differences? 1305

Autonomic nervous system
Effects of Resting Vagal Tone on Accessory Atrioventricular Connections, 86

Autoradiography
Autoradiographic Mapping of Calcitonin Gene-Related Peptide Receptors in Human and Guinea Pig Hearts, 741

B

Baroreceptor reflex
Autonomic Function in Hypertension: Are There Racial Differences? 1305
Carotid Sinus Baroreceptor Sensitivity in Experimental Heart Failure, 1959
Sympathoinhibitory Effects of Atrial Natriuretic Factor in Normal Humans, 1860

α-Blockade
Autonomic Function in Hypertension: Are There Racial Differences? 1305

β-Blockade
Effect of Intravenous Propranolol on Coronary Vasomotion at Rest and During Dynamic Exercise in Patients With Coronary Artery Disease, 1225

Lack of Diurnal Variation in the Onset of Non–Q Wave Infarction, 548

Bleeding time
Preliminary Assessment of a Novel Thromboxane A_2 Receptor–Blocking Drug, GR32191, in Healthy Subjects, I-53

Blood flow
Alteration of Endothelium-Dependent Distribution of Myocardial Blood Flow After Coronary Occlusion and Reperfusion, 1928
Hemodynamic Changes in the Peripheral Circulation After Repeat Low Density Lipoprotein Apheresis in Familial Hypercholesterolemia, 610
Platelets, Blood Flow, and the Vessel Wall, I-24

Blood pressure
Black-White Differences in Exercise Blood Pressure: The Lipid Research Clinics Program Prevalence Study, 1568
Carotid Sinus Baroreceptor Sensitivity in Experimental Heart Failure, 1959
Continuous 24-Hour Assessment of the Neural Regulation of Systemic Arterial Pressure and RR Variabilities in Ambulant Subjects, 537
Controlled Trial of Aerobic Exercise in Hypertension, 1560
Effect of Endothelin-1 in Man, 1415
Physiological and Immunopathological Consequences of Active Immunization of Spontaneously Hypertensive and Normotensive Rats Against Murine Renin, 1899
Relation of Blood Viscosity to Demographic and Physiologic Variables and to Cardiovascular Risk Factors in Apparently Normal Adults, 107
Relation of Left Ventricular Hemodynamic Load and Contractile Performance to Left Ventricular Mass in Hypertension, 25

Blood pressure, ambulatory
Effect of Dietary Potassium on Blood Pressure, Renal Function, Muscle Sympathetic Nerve Activity, and Forearm Vascular Resistance and Flow in Normotensive and Borderline Hypertensive Humans, 173

Blood volume
Redistribution of Regional and Organ Blood Volume and Effect on Cardiac Function in Relation to Upright Exercise Intensity in Healthy Human Subjects, 1550

BM 13.177
Preliminary Clinical Studies With Thromboxane Synthase Inhibitors and Thromboxane Receptor Blockers: A Review, I-69

Body surface mapping
Body Surface Mapping During Percutaneous Transluminal Coronary Angioplasty: QRS Changes Indicating Regional Myocardial Conduction Delay, 840
Relation Between Localization of Coronary Artery Disease and Local Abnormalities in Ventricular Activation During Exercise Tests, 461

Bradykinin
Alteration of Endothelium-Dependent Distribution of Myocardial Blood Flow After Coronary Occlusion and Reperfusion, 1928
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586

Buffering of metabolic acid
Gas Exchange Theory and the Lactic Acidosis (Anaerobic) Threshold, II-14

C

Calcitonin gene-related peptide receptors
Autoradiographic Mapping of Calcitonin Gene-Related Peptide Receptors in Human and Guinea Pig Hearts, 741

Calcium
Abnormal Intracellular Calcium Handling, a Major Cause of Systolic and Diastolic Dysfunction in Ventricular Myocardium From Patients With Heart Failure, III-21
Calcium Attenuates Epinephrine's β-Adrenergic Effects in Postoperative Heart Surgery Patients, 196

Calcium antagonist
Effects of Nicardipine on Myocardial Function In Vitro and In Vivo, III-139
Effects of Nicardipine on Regional Diastolic Left Ventricular Function in Patients With Angina Pectoris, III-148

Calcium channel blockers
Effects of Calcium Antagonists on β-Receptors of Cultured Cardiac Myocytes Isolated From Neonatal Rat Ventricle, 1401
Effects of Long-term Treatment With Calcium Antagonists on Left Ventricular Diastolic Function in Stable Angina and Heart Failure, III-130
Involvement of Endothelin in the Regulation of Human Vascular Tonus: Potent Vasoconstrictor Effect and Existence in Endothelial Cells, 1874

Calcium indicators
Abnormal Intracellular Calcium Handling, a Major Cause of Systolic and Diastolic Dysfunction in Ventricular Myocardium From Patients With Heart Failure, III-21

Carbicarb
Buffer Agents Do Not Reverse Intramyocardial Acidosis During Cardiac Resuscitation, 1660

Cardiac arrest
Buffer Agents Do Not Reverse Intramyocardial Acidosis During Cardiac Resuscitation, 1660

Cardiac death
Silent Ischemia During Daily Life Is an Independent Predictor of Mortality in Stable Angina, 748

Cardiac death, sudden
Effect of Epicardial Patch Electrodes on Transthoracic Defibrillation, 1409
Evolving Concepts in the Management of Congenital Junctional Ectopic Tachycardia: A Multicenter Study, 1544
Sudden Death After Repair of Double-Outlet Right Ventricle, 128
Transvenous Defibrillation in Humans via the Coronary Sinus, 1252

Cardiac embryology
Microcinephotography of the Developing Heart in Neural Crest-Ablated Chick Embryos, 1047

Cardiac function
Antibodies to ADP-ATP Carrier—an Autoantigen in Myocarditis and Dilated Cardiomyopathy—Impair Cardiac Function, 959
Redistribution of Regional and Organ Blood Volume and Effect on Cardiac Function in Relation to Upright Exercise Intensity in Healthy Human Subjects, 1550
The Complement System in Ischemic Heart Disease, 156

Cardiac hypertrophy
Abnormal Intracellular Calcium Handling, a Major Cause of Systolic and Diastolic Dysfunction in Ventricular Myocardium From Patients With Heart Failure, III-21
Cardiac Myocytes as Targets for the Action of Peptide Growth Factors, 1443
Effects of Long-term Pressure Overload on Regional Myocardial Glucose and Free Fatty Acid Uptake in Rats: A Quantitative Autoradiographic Study, 1353
Serial Measurement of Integrated Ultrasonic Backscatter in Human Cardiac Allografts for the Recognition of Acute Rejection, 829

Cardiac output
Autoregulation of Cardiac Output by Passive Elastic Characteristics of the Vascular Capacitance System, 360
Calcium Attenuates Epinephrine's β-Adrenergic Effects in Postoperative Heart Surgery Patients, 196
Sympathoinhibitory Effects of Atrial Natriuretic Factor in Normal Humans, 1860

Cardiac pathology
Mildly Dilated Congestive Cardiomyopathy: Use of Prospective Diagnostic Criteria and Description of the Clinical Course Without Heart Transplantation, 506

Cardiac rejection
Diastolic Dysfunction During Acute Cardiac Allograft Rejection, III-66

Recovery of a Normal Coronary Vascular Reserve After Rejection Therapy in Acute Human Cardiac Allograft Rejection, 1312

Cardiomyopathies
Antibodies to ADP-ATP Carrier—an Autoantigen in Myocarditis and Dilated Cardiomyopathy—Impair Cardiac Function, 959
Effects of Nifedipine on Left Ventricular Diastolic Function in Patients With Asymptomatic or Minimally Symptomatic Hypertrophic Cardiomyopathy, 593
Exercise Capacity for Survivors of Cardiac Transplantation or Sustained Medical Therapy for Stable Heart Failure, 78
In Vivo Quantitative Ultrasonic Evaluation of Myocardial Fibrosis in Humans, 58
Is Standardization of Left Ventricular Chamber Elastance Necessary?, 1826
Peripartum Myocarditis and Cardiomyopathy, 922

Cardiovascular diseases
Can Serial Exercise Testing Improve the Prediction of Coronary Events in Asymptomatic Individuals? 20
Lipoprotein and Oxygen Transport Alterations in Passive Smoking Preadolescent Children: The MCV Twin Study, 586
Prognostic Significance of the Electrocardiogram After Q Wave Myocardial Infarction: The Framingham Study, 780

Carnitine metabolism
Benefit of Exercise Conditioning for Patients With Peripheral Arterial Disease, 602

Catecholamines
Calcium Attenuates Epinephrine's β-Adrenergic Effects in Postoperative Heart Surgery Patients, 196
Is Physiologic Sympathoadrenal Catecholamine Release Exocytotic in Humans? 185
Positron Emission Tomographic Imaging of Cardiac Sympathetic Innervation and Function, 1606

Catheterization
Application of a New Phased-Array Ultrasound Imaging Catheter in the Assessment of Vascular Dimensions: In Vivo Comparison to Cineangiography, 660
Computerized Tabulation of Cine Coronary Angiograms: Its Implication for Results of Randomized Trials, 1992

Cell redox state
Gas Exchange Theory and the Lactic Acidosis (Anaerobic) Threshold, II-14

Cerebral transient ischemic attacks
Role of Platelets and Antiplatelet Agents in Cerebrovascular Disease: Clues From Trials, I-20

CGS 13080
Preliminary Clinical Studies With Thromboxane Synthase Inhibitors and Thromboxane Receptor Blockers: A Review, I-69

Children
Evolving Concepts in the Management of Congenital Junctional Ectopic Tachycardia: A Multicenter Study, 1544
Lipoprotein and Oxygen Transport Alterations in Passive Smoking Preadolescent Children: The MCV Twin Study, 586

Cholera toxin
Pertussis Toxin Treatment of Whole Blood: A Novel Approach to Assess G Protein Function in Congestive Heart Failure, 1198

Cholesterol
Black-White Differences in Exercise Blood Pressure: The Lipid Research Clinics Program Prevalence Study, 1568
Body Fat Distribution and Male/Female Differences in Lipids and Lipoproteins, 1498
Relation of Blood Viscosity to Demographic and Physiologic Variables and to Cardiovascular Risk Factors in Apparently Normal Adults, 107

Chromogranin A
Is Physiologic Sympathoadrenal Catecholamine Release Exocytotic in Humans? 185

Circadian
Lack of Diurnal Variation in the Onset of Non–Q Wave Infarction, 548

Circulation
Computerized Tabulation of Cine Coronary Angiograms: Its Implication for Results of Randomized Trials, 1992
Coronary Reserve Is Depressed in Postmyocardial Infarction Reactive Cardiac Hypertrophy, 238

Clinical trials
A Controlled Trial of Corticosteroids to Prevent Restenosis After Coronary Angioplasty, 1753
Black-White Differences in Exercise Blood Pressure: The Lipid Research Clinics Program Prevalence Study, 1568
Comparison of Immediate Invasive, Delayed Invasive, and Conservative Strategies After Tissue-Type Plasminogen Activator: Results of the Thrombolysis in Myocardial Infarction (TIMI) Phase II-A Trial, 1457
Effect of Dietary Potassium on Blood Pressure, Renal Function, Muscle Sympathetic Nerve Activity, and Forearm Vascular Resistance and Flow in Normotensive and Borderline Hypertensive Humans, 173
Effect of Endothelin-1 in Man, 1415
Efficacy and Safety of Perhexiline Maleate in Refractory Angina: A Double-Blind Placebo-Controlled Clinical Trial of a Novel Antianginal Agent, 1260
Prediction of Angiographic Change in Native Human Coronary Arteries and Aortocoronary Bypass Grafts: Lipid and Nonlipid Factors, 470

Cocaine
Mechanism of Cocaine-Induced Myocardial Depression in Dogs, 1012

CO_2 production
Gas Exchange Theory and the Lactic Acidosis (Anaerobic) Threshold, II-14

Colchicine
Effects of Calcium Antagonists on β-Receptors of Cultured Cardiac Myocytes Isolated From Neonatal Rat Ventricle, 1401

Cold pressor test
Autonomic Function in Hypertension: Are There Racial Differences? 1305

Color Doppler flow
Quantification of Jet Flow by Momentum Analysis: An In Vitro Color Doppler Flow Study, 247
Value of Acceleration Flows and Regurgitant Jet Direction by Color Doppler Flow Mapping in the Evaluation of Mitral Valve Prolapse, 879

Complications
Prediction of Acute Closure in Percutaneous Transluminal Coronary Angioplasty, IV-5

Computed tomography
Detection of Dissection of the Aortic Intima and Media After Angioplasty of Coarctation of the Aorta: An Angiographic, Computer Tomographic, and Echocardiographic Comparative Study, 805

Conduction block
Double-Wave Reentry As a Mechanism of Acceleration of Ventricular Tachycardia, 1633

Congenital heart disease
Sudden Death After Repair of Double-Outlet Right Ventricle, 128
Trends in Congenital Heart Disease in Dallas County Births: 1971–1984, 137
Two-Dimensional Echocardiographic Determination of Ventricular Volumes in the Fetal Heart: Validation Studies in Fetal Lambs, 325

Congestive heart failure
Effects of Long-term Treatment With Calcium Antagonists on Left Ventricular Diastolic Function in Stable Angina and Heart Failure, III-130
Exercise Capacity for Survivors of Cardiac Transplantation or Sustained Medical Therapy for Stable Heart Failure, 78
Factors Influencing Diastolic Function: Possible Role of the Extracellular Matrix, III-155
Neurohormonal Activation and the Response to Converting Enzyme Inhibitors in Congestive Heart Failure, III-107

Pertussis Toxin Treatment of Whole Blood: A Novel Approach to Assess G Protein Function in Congestive Heart Failure, 1198
Skeletal Muscle Biochemistry and Histology in Ambulatory Patients With Long-term Heart Failure, 518

Contractility
Impact of Fontan Operation on Left Ventricular Size and Contractility in Tricuspid Atresia, 118
Is Standardization of Left Ventricular Chamber Elastance Necessary? 1826

Contrast appearance time
Mean Transit Time for the Assessment of Myocardial Perfusion by Videodensitometry, 1331

Coronary angiography
The Safety of Intravenous Dipyridamole Thallium Myocardial Perfusion Imaging, 1205

Coronary angioplasty
Perfluorochemical Perfusion During Coronary Angioplasty in Unstable and High-Risk Patients, IV-27

Coronary arteries
Computerized Tabulation of Cine Coronary Angiograms: Its Implication for Results of Randomized Trials, 1992
Endothelial Modulation of the Coronary Vasculature in Vessels Perfused via Mature Collaterals, 1938
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586
Estrogen Modulates Responses of Atherosclerotic Coronary Arteries, 1680

Coronary arteriography
Effect of Intravenous Propranolol on Coronary Vasomotion at Rest and During Dynamic Exercise in Patients With Coronary Artery Disease, 1225

Coronary artery disease
Coronary Artery Imaging With Intravascular High-Frequency Ultrasound, 1575
Directional Atherectomy: New Approaches for Treatment of Obstructive Coronary and Peripheral Vascular Disease, IV-79
Effect of Intravenous Propranolol on Coronary Vasomotion at Rest and During Dynamic Exercise in Patients With Coronary Artery Disease, 1225
Effects of Nicardipine on Regional Diastolic Left Ventricular Function in Patients With Angina Pectoris, III-148
Low Incidence of Fatal Coronary Heart Disease in Pima Indians Despite High Prevalence of Non–Insulin-Dependent Diabetes, 987
Percutaneous Coronary Excimer Laser Angioplasty in Patients With Stable and Unstable Angina Pectoris: Acute Results and Incidence of Restenosis During 6-Month Follow-up, 1849
Prognostic Significance of the Electrocardiogram After Q Wave Myocardial Infarction: The Framingham Study, 780
Prolonged Duration of Myocardial Ischemia in Patients With Coronary Heart Disease and Impaired Cardiopulmonary Baroreceptor Sensitivity, 1792
Prostaglandin I_2 Half-life Regulated by High Density Lipoprotein Is Decreased in Acute Myocardial Infarction and Unstable Angina Pectoris, 1784
Quantitative and Qualitative ST Segment Monitoring During and After Percutaneous Transluminal Coronary Angioplasty, IV-20
Regional Left Ventricular Nonuniformity: Effects on Left Ventricular Diastolic Function in Ischemic Heart Disease, Hypertrophic Cardiomyopathy, and the Normal Heart, III-54
Relation Between Localization of Coronary Artery Disease and Local Abnormalities in Ventricular Activation During Exercise Tests, 461
The Safety of Intravenous Dipyridamole Thallium Myocardial Perfusion Imaging, 1205

Coronary blood flow
α-Adrenergic Mechanisms in Myocardial Ischemia, 1
Antiplatelet Antibody [7E3 F(ab')$_2$] Prevents Rethrombosis After Recombinant Tissue-Type Plasminogen Activator–Induced Coronary Artery Thrombolysis in a Canine Model, 617
Effect of Coronary Stenosis on Myocardial Blood Flow During Exercise in the Chronically Pressure-Overloaded Hypertrophied Left Ventricle, 1967
Effects of Nicardipine on Myocardial Function In Vitro and In Vivo, III-139
Interstudy Variability of Coronary Flow Reserve: Influence of Heart Rate, Arterial Pressure, and Ventricular Preload, 1319
Mechanism of Cocaine-Induced Myocardial Depression in Dogs, 1012
Paradoxical Narrowing of Atherosclerotic Coronary Arteries Induced by Increases in Heart Rate, 850

Coronary events
Prevalence and Prognostic Significance of Exercise-Induced Silent Myocardial Ischemia Detected by Thallium Scintigraphy and Electrocardiography in Asymptomatic Volunteers, 428

Coronary flow
Hemodynamic Mechanisms of Antianginal Action of Calcium Channel Blocker Nisoldipine in Dynamic Exercise-Induced Angina, 1887
Reduced Subendocardial Coronary Reserve: A Potential Mechanism for Impaired Diastolic Function in the Hypertrophied and Failing Heart, III-8

Coronary occlusion
Coronary Venous Synchronized Retroperfusion During Percutaneous Transluminal Angioplasty of Left Anterior Descending Coronary Artery, IV-35

Coronary perfusion pressure
Buffer Agents Do Not Reverse Intramyocardial Acidosis During Cardiac Resuscitation, 1660

Coronary reperfusion
Interventions in Acute Myocardial Infarction, IV-43

Coronary reserve
Recovery of a Normal Coronary Vascular Reserve After Rejection Therapy in Acute Human Cardiac Allograft Rejection, 1312

Coronary thrombolysis
Augmented and Sustained Plasma Concentrations After Intramuscular Injections of Molecular Variants and Deglycosylated Forms of Tissue-Type Plasminogen Activators, 1362
Behavior of Right and Left Ventricles During Episodes of Variant Angina in Relation to the Site of Coronary Vasospasm, 567
Effects of Insulin on Vasoconstriction Induced by Thromboxane A_2 in Porcine Coronary Artery, 1654
Paradoxical Narrowing of Atherosclerotic Coronary Arteries Induced by Increases in Heart Rate, 850

Coronary vessels
Effects of H_1-Receptor Stimulation on Coronary Arterial Diameter and Coronary Hemodynamics in Humans, 65

Creatine phosphokinase
Automatic Implantable Cardioverter/Defibrillator Discharges and Acute Myocardial Injury, 1482

Cross-bridge detachment
Wide-Range Load Shift of Combined Aortic Valvuloplasty-Arterial Vasodilation Slows Isovolumic Relaxation of the Hypertrophied Left Ventricle, 886

Cyclic AMP
Abnormal Intracellular Calcium Handling, a Major Cause of Systolic and Diastolic Dysfunction in Ventricular Myocardium From Patients With Heart Failure, III-21

Cycloheximide
Effects of Calcium Antagonists on β-Receptors of Cultured Cardiac Myocytes Isolated From Neonatal Rat Ventricle, 1401

Cyclooxygenase
Prostaglandin Redirection by Thromboxane Synthetase Inhibition: Attenuation of Myocardial Stunning in Canine Heart, 369

Cyclosporine nephrotoxicity
Thromboxane Receptor Blockade Attenuates the Toxic Effect of Cyclosporine in Experimental Renal Transplantation, I-61

Cytochrome P-450
Efficacy and Safety of Perhexiline Maleate in Refractory Angina: A Double-Blind Placebo-Controlled Clinical Trial of a Novel Antianginal Agent, 1260

D

Dazoxiben
Preliminary Clinical Studies With Thromboxane Synthase Inhibitors and Thromboxane Receptor Blockers: A Review, I-69
Decision-analytic model
An Analysis of the Cost Effectiveness of the Implantable Defibrillator, 91
Defibrillation
Effect of Duration of Ventricular Fibrillation on Defibrillation Efficacy in Humans, 1477
Denervation supersensitivity
Electrophysiological Effects of Adenosine in the Transplanted Human Heart: Evidence of Supersensitivity, 821
Departure map
Relation Between Localization of Coronary Artery Disease and Local Abnormalities in Ventricular Activation During Exercise Tests, 461
Diabetes mellitus
Low Incidence of Fatal Coronary Heart Disease in Pima Indians Despite High Prevalence of Non–Insulin-Dependent Diabetes, 987
Resting Electrocardiographic Abnormalities Suggestive of Asymptomatic Ischemic Heart Disease Associated With Non–Insulin-Dependent Diabetes Mellitus in a Defined Population, 899
Diastole
Assessment of Left Ventricular Relaxation by Doppler Echocardiography: Comparison of Isovolumic Relaxation Time and Transmitral Flow Velocities With Time Constant of Isovolumic Relaxation, 260
Diastolic Dysfunction and Congestive Heart Failure, III-1
Effect of Acute Angiotensin Converting Enzyme Inhibition on Left Ventricular Filling in Patients With Congestive Heart Failure: Relation to Right Ventricular Volumes, III-115
Effects of Nicardipine on Regional Diastolic Left Ventricular Function in Patients With Angina Pectoris, III-148
Physiological Early Diastolic Intraventricular Pressure Gradient Is Lost During Acute Myocardial Ischemia, 1688
Relation of Left Ventricular Filling Dynamics to Alterations in Load and Compliance in Patients With and Without Pressure-Overload Hypertrophy, 101
The Dependence of the Time Constant of Left Ventricular Isovolumic Relaxation (τ) on Pericardial Pressure, 1071
Diastolic dysfunction
Factors Influencing Diastolic Function: Possible Role of the Extracellular Matrix, III-155
Silent Myocardial Ischemia in Patients With Coronary Artery Disease: Possible Links With Diastolic Left Ventricular Dysfunction, III-33
Diastolic filling
Changes of Left Ventricular Diastolic Function in Exercising Dogs Without and With Ischemia, 1058
Relation of Pulmonary Vein to Mitral Flow Velocities by Transesophageal Doppler Echocardiography: Effect of Different Loading Conditions, 1488
Diastolic function
Abnormalities of Diastolic Function as a Potential Cause of Exercise Intolerance in Chronic Heart Failure, III-78
Comparative Effects of Pacing-Induced and Flow-Limited Ischemia on Left Ventricular Function, 1380
Diastolic Dysfunction During Acute Cardiac Allograft Rejection, III-66
Effects of Benazeprilat on Left Ventricular Systolic and Diastolic Function and Neurohumoral Status in Patients With Ischemic Heart Disease, III-123
Effects of Long-term Treatment With Calcium Antagonists on Left Ventricular Diastolic Function in Stable Angina and Heart Failure, III-130
Influence of Coronary Occlusion During PTCA on End-Systolic and End-Diastolic Pressure-Volume Relations in Humans, 447
Reduced Subendocardial Coronary Reserve: A Potential Mechanism for Impaired Diastolic Function in the Hypertrophied and Failing Heart, III-8
Diastolic pressure-volume relations
Changes of Left Ventricular Diastolic Function in Exercising Dogs Without and With Ischemia, 1058
Digital radiography
Mean Transit Time for the Assessment of Myocardial Perfusion by Videodensitometry, 1331
Digitalis
Prolonged Duration of Myocardial Ischemia in Patients With Coronary Heart Disease and Impaired Cardiopulmonary Baroreceptor Sensitivity, 1792
Treatment of 150 Cases of Life-Threatening Digitalis Intoxication With Digoxin-Specific Fab Antibody Fragments: Final Report of a Multicenter Study, 1744
Diltiazem
Antiarrhythmic Actions of Diltiazem During Experimental Atrioventricular Reentrant Tachycardias: Importance of Use-Dependent Calcium Channel–Blocking Properties, 334
Dipyridamole
Electrocardiographic Changes Suggestive of Myocardial Ischemia Elicited by Dipyridamole Infusion in Acute Rejection Early After Heart Transplantation, 72
The Safety of Intravenous Dipyridamole Thallium Myocardial Perfusion Imaging, 1205
Dissection
Prediction of Acute Closure in Percutaneous Transluminal Coronary Angioplasty, IV-5
Diurnal
Lack of Diurnal Variation in the Onset of Non–Q Wave Infarction, 548
Dopamine
Positron Emission Tomographic Imaging of Cardiac Sympathetic Innervation and Function, 1606
Dopexamine
Neurotransmitter Depletion Compromises the Ability of Indirect-Acting Amines to Provide Inotropic Support in the Failing Human Heart, 929
Dynamics
Spectral Characteristics of Heart Rate Variability Before and During Postural Tilt: Relations to Aging and Risk of Syncope, 1803

E

Early afterdepolarizations
Early Afterdepolarizations Induced In Vivo by Reperfusion of Ischemic Myocardium: A Possible Mechanism for Reperfusion Arrhythmias, 1911
Echocardiography
Characterization of Acute Experimental Left Ventricular Thrombi With Quantitative Backscatter Imaging, 1017
Circadian Blood Pressure Changes and Left Ventricular Hypertrophy in Essential Hypertension, 528
Detection of Dissection of the Aortic Intima and Media After Angioplasty of Coarctation of the Aorta: An Angiographic, Computer Tomographic, and Echocardiographic Comparative Study, 805
Determinants of Sensitivity and Specificity of Electrocardiographic Criteria for Left Ventricular Hypertrophy, 815
Diastolic Dysfunction During Acute Cardiac Allograft Rejection, III-66
Factors Associated With Pericardial Effusion in Acute Q Wave Myocardial Infarction, 477
In Vivo Quantitative Ultrasonic Evaluation of Myocardial Fibrosis in Humans, 58
Mildly Dilated Congestive Cardiomyopathy: Use of Prospective Diagnostic Criteria and Description of the Clinical Course Without Heart Transplantation, 506

Relation of Left Ventricular Hemodynamic Load and Contractile Performance to Left Ventricular Mass in Hypertension, 25

Echocardiography, Doppler
Intraoperative Doppler Color Flow Mapping for Decision-Making in Valve Repair for Mitral Regurgitation: Technique and Results in 100 Patients, 556
Quantification of Jet Flow by Momentum Analysis: An In Vitro Color Doppler Flow Study, 247
Recovery of a Normal Coronary Vascular Reserve After Rejection Therapy in Acute Human Cardiac Allograft Rejection, 1312
Relation of Pulmonary Vein to Mitral Flow Velocities by Transesophageal Doppler Echocardiography: Effect of Different Loading Conditions, 1488
Two-Dimensional Echocardiography and Doppler Color Flow Mapping in the Diagnosis and Prognosis of Ventricular Septal Rupture, 1775

Echocardiography, transesophageal
Relation of Pulmonary Vein to Mitral Flow Velocities by Transesophageal Doppler Echocardiography: Effect of Different Loading Conditions, 1488

Echocardiography, two-dimensional
^{111}In Platelet Imaging of Left Ventricular Thrombi: Predictive Value for Systemic Emboli, 1182
Reversible Segmental Left Ventricular Dysfunction After Coronary Angioplasty, 1210
Two-Dimensional Echocardiographic Determination of Ventricular Volumes in the Fetai Heart: Validation Studies in Fetal Lambs, 325

Ejection fraction
Comparison of Immediate Invasive, Delayed Invasive, and Conservative Strategies After Tissue-Type Plasminogen Activator: Results of the Thrombolysis in Myocardial Infarction (TIMI) Phase II-A Trial, 1457
Effects of Long-term Treatment With Calcium Antagonists on Left Ventricular Diastolic Function in Stable Angina and Heart Failure, III-130

Elastance
Dissociation of End Systole From End Ejection in Patients With Long-term Mitral Regurgitation, 1277
Is Standardization of Left Ventricular Chamber Elastance Necessary? 1826

Elastic recoil
Restenosis After Percutaneous Transluminal Coronary Angioplasty—Anatomic and Pathophysiological Mechanisms: Strategies for Prevention, IV-2

Elderly
Chest Pain and Coronary Heart Disease Mortality Among Older Men and Women in Three Communities, 437

Electrocardiography
Automatic Implantable Cardioverter/Defibrillator Discharges and Acute Myocardial Injury, 1482
Determinants of Sensitivity and Specificity of Electrocardiographic Criteria for Left Ventricular Hypertrophy, 815
Do Changes in Pulmonary Capillary Wedge Pressure Adequately Reflect Myocardial Ischemia During Anesthesia? A Correlative Preoperative Hemodynamic, Electrocardiographic, and Transesophageal Echocardiographic Study, 865
Electrocardiographic Changes Suggestive of Myocardial Ischemia Elicited by Dipyridamole Infusion in Acute Rejection Early After Heart Transplantation, 72
Improving the Predictive Ability of the Signal-Averaged Electrocardiogram With a Linear Logistic Model Incorporating Clinical Variables, 797
Premature Ventricular Complex Morphology: A Marker for Left Ventricular Structure and Function, 1245
Prognostic Significance of the Electrocardiogram After Q Wave Myocardial Infarction: The Framingham Study, 780

Electrocardiography, Doppler
Detrimental Sequelae on the Hemodynamics of the Upper Left Limb After Subclavian Flap Angioplasty in Infancy, 996

Electrophysiology
Modification of Sinus Node Function by Epicardial Laser Irradiation in Dogs, 350
Resetting of Ventricular Tachycardia by Single Extrastimuli: Relation to Slow Conduction Within the Reentrant Circuit, 1507

Enalapril
Effect of Acute Angiotensin Converting Enzyme Inhibition on Left Ventricular Filling in Patients With Congestive Heart Failure: Relation to Right Ventricular Volumes, III-115

Encainide
Comparative Hemodynamic Effects of Procainamide, Tocainide, and Encainide in Severe Chronic Heart Failure, 860

End ejection
Dissociation of End Systole From End Ejection in Patients With Long-term Mitral Regurgitation, 1277

Endocardial endothelium
Eosinophils From Hypereosinophilic Patients Damage Endocardium of Isolated Feline Heart Muscle Preparations, 1081

Endomyocardial fibrosis
Eosinophils From Hypereosinophilic Patients Damage Endocardium of Isolated Feline Heart Muscle Preparations, 1081

Endothelial cell function
Coronary Vasomotor Response to Acetylcholine Relates to Risk Factors for Coronary Artery Disease, 491

Endothelin-1
Effect of Endothelin-1 in Man, 1415
Involvement of Endothelin in the Regulation of Human Vascular Tonus: Potent Vasoconstrictor Effect and Existence in Endothelial Cells, 1874

Endothelium
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586
Estrogen Modulates Responses of Atherosclerotic Coronary Arteries, 1680
Mechanisms and Therapy of Myocardial Reperfusion Injury, IV-69

Endothelium-dependent relaxation
Persistent Dysfunction of Regenerated Endothelium After Balloon Angioplasty of Rabbit Iliac Artery, 1667

Endothelium-derived relaxing factor
Alteration of Endothelium-Dependent Distribution of Myocardial Blood Flow After Coronary Occlusion and Reperfusion, 1928
Endothelial Modulation of the Coronary Vasculature in Vessels Perfused via Mature Collaterals, 1938
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586

Enzymes
Complete Recovery in Plasma of Enzymes Lost From the Heart After Permanent Coronary Artery Occlusion in the Dog, 649
Skeletal Muscle Biochemistry and Histology in Ambulatory Patients With Long-term Heart Failure, 518

Eosinophils
Eosinophils From Hypereosinophilic Patients Damage Endocardium of Isolated Feline Heart Muscle Preparations, 1081

Epidemiological methods
Determinants of Sensitivity and Specificity of Electrocardiographic Criteria for Left Ventricular Hypertrophy, 815
Trends in Congenital Heart Disease in Dallas County Births: 1971–1984, 137

Epinephrine
Calcium Attenuates Epinephrine's β-Adrenergic Effects in Postoperative Heart Surgery Patients, 196

Escape function
Modification of Sinus Node Function by Epicardial Laser Irradiation in Dogs, 350

Essential hypertension
Left Ventricular Hypertrophy and Impaired Diastolic Filling in Essential Hypertension: Diastolic Mechanisms for Systolic Dysfunction During Exercise, 978
Estrogen
Estrogen Modulates Responses of Atherosclerotic Coronary Arteries, 1680
Excimer laser angioplasty
Interventional Cardiovascular Therapy by Laser and Thermal Angioplasty, IV-109
Excitable gap
Double-Wave Reentry As a Mechanism of Acceleration of Ventricular Tachycardia, 1633
Ventricular Reentry Around a Fixed Barrier: Resetting With Advancement in an In Vitro Model, 267
Excitation-contraction coupling
Abnormal Intracellular Calcium Handling, a Major Cause of Systolic and Diastolic Dysfunction in Ventricular Myocardium From Patients With Heart Failure, III-21
Exercise
Abnormalities of Diastolic Function as a Potential Cause of Exercise Intolerance in Chronic Heart Failure, III-78
Black-White Differences in Exercise Blood Pressure: The Lipid Research Clinics Program Prevalence Study, 1568
Changes in Lipoprotein Subfractions During Diet-Induced and Exercise-Induced Weight Loss in Moderately Overweight Men, 1293
Circulatory Regulation at Rest and Exercise and the Functional Assessment of Patients With Congestive Heart Failure, II-5
Combined Effects of Nitrates on the Coronary and Peripheral Circulation in Exercise-Induced Ischemia, 1881
Effect of Asynchrony on Left Ventricular Relaxation, III-41
Effect of Intravenous Propranolol on Coronary Vasomotion at Rest and During Dynamic Exercise in Patients With Coronary Artery Disease, 1225
Exercise Capacity for Survivors of Cardiac Transplantation or Sustained Medical Therapy for Stable Heart Failure, 78
Gas Exchange Theory and the Lactic Acidosis (Anaerobic) Threshold, II-14
Influence of the Pericardium and Ventricular Interdependence on Left Ventricular Diastolic and Systolic Function in Patients With Heart Failure, III-15
Redistribution of Regional and Organ Blood Volume and Effect on Cardiac Function in Relation to Upright Exercise Intensity in Healthy Human Subjects, 1550
The Anaerobic Threshold in Chronic Heart Failure: Relation to Blood Lactate, Ventilatory Basis, Reproducibility, and Response to Exercise Training, II-47
Exercise electrocardiogram
Prevalence and Prognostic Significance of Exercise-Induced Silent Myocardial Ischemia Detected by Thallium Scintigraphy and Electrocardiography in Asymptomatic Volunteers, 428
Exercise tests
A Comparison of Methodologies in Detection of the Anaerobic Threshold, II-38
Can Serial Exercise Testing Improve the Prediction of Coronary Events in Asymptomatic Individuals? 20
Circulatory Regulation at Rest and Exercise and the Functional Assessment of Patients With Congestive Heart Failure, II-5
Evaluation of Severity of Heart Failure Using Ventilatory Gas Analysis, II-31
Hemodynamic Mechanisms of Antianginal Action of Calcium Channel Blocker Nisoldipine in Dynamic Exercise-Induced Angina, 1887
Paradoxical Effects of Exercise on the QT Interval in Patients With Polymorphic Ventricular Tachycardia Receiving Type Ia Antiarrhythmic Agents, 14
Exercise thallium scintigraphy
The Safety of Intravenous Dipyridamole Thallium Myocardial Perfusion Imaging, 1205
Exercise tolerance
Heart Failure With Normal Ejection Fraction: The V-HeFT Study, III-48
Exocytosis
Is Physiologic Sympathoadrenal Catecholamine Release Exocytotic in Humans? 185

F

Fab fragments
Treatment of 150 Cases of Life-Threatening Digitalis Intoxication With Digoxin-Specific Fab Antibody Fragments: Final Report of a Multicenter Study, 1744
$F(ab')_2$
Sustained Limitation of Myocardial Reperfusion Injury by a Monoclonal Antibody That Alters Leukocyte Function, 226
Factor VIII coagulant activity
Effects of Desmopressin Acetate on Platelet Aggregation, von Willebrand Factor, and Blood Loss After Cardiac Surgery With Extracorporeal Circulation, 872
Familial hypercholesterolemia
Hemodynamic Changes in the Peripheral Circulation After Repeat Low Density Lipoprotein Apheresis in Familial Hypercholesterolemia, 610
Fat patterning
Body Fat Distribution and Male/Female Differences in Lipids and Lipoproteins, 1498
Fenoldopam
Renal and Hemodynamic Effects of Intravenous Fenoldopam Versus Nitroprusside in Severe Hypertension, 970
Fetuses, human
Doppler Studies of Vena Cava Flows in Human Fetuses: Insights Into Normal and Abnormal Cardiac Physiology, 498
Fibrin
Are There Markers of the Blood–Vessel Wall Interaction and of Thrombus Formation That Can Be Used Clinically? I-28
Augmented and Sustained Plasma Concentrations After Intramuscular Injections of Molecular Variants and Deglycosylated Forms of Tissue-Type Plasminogen Activators, 1362
Conjugation to Antifibrin Fab' Enhances Fibrinolytic Potency of Single-Chain Urokinase Plasminogen Activator, 1974
Intravenous Thrombolytic Therapy With a Combination of Single-Chain Urokinase-Type Plasminogen Activator and Recombinant Tissue-Type Plasminogen Activator in Acute Myocardial Infarction, 907
Quantitation of Venous Clot Lysis With the D-Dimer Immunoassay During Fibrinolytic Therapy Requires Correction for Soluble Fibrin Degradation, 1818
Fibroblast growth factor
Cardiac Myocytes as Targets for the Action of Peptide Growth Factors, 1443
Fibromuscular hyperplasia
Persistent Dysfunction of Regenerated Endothelium After Balloon Angioplasty of Rabbit Iliac Artery, 1667
Fibrosis
Fibrosis in the Transplanted Heart and Its Relation to Donor Ischemic Time: Assessment With Polarized Light Microscopy and Digital Image Analysis, 949
Fitness
Controlled Trial of Aerobic Exercise in Hypertension, 1560
Fluid dynamics
Quantification of Jet Flow by Momentum Analysis: An In Vitro Color Doppler Flow Study, 247
Fluorocatecholamines
Positron Emission Tomographic Imaging of Cardiac Sympathetic Innervation and Function, 1606
Fontan procedure
Impact of Fontan Operation on Left Ventricular Size and Contractility in Tricuspid Atresia, 118
Outcome After a "Perfect" Fontan Operation, 1520
Forearm blood flow
Indirect Evidence for Release of Endothelium-Derived Relaxing Factor in Human Forearm Circulation In Vivo: Blunted Response in Essential Hypertension, 1762
Fourier analysis
Spectral Characteristics of Heart Rate Variability Before and During Postural Tilt: Relations to Aging and Risk of Syncope, 1803

Fragmentation
Catheter Ablation of the Atrial Myocardium in Human Type I Atrial Flutter, 762
Free radicals
Occurrence of Oxidative Stress During Reperfusion of the Human Heart, 201

G

G protein
Pertussis Toxin Treatment of Whole Blood: A Novel Approach to Assess G Protein Function in Congestive Heart Failure, 1198
Glucose
Effects of Insulin on Vasoconstriction Induced by Thromboxane A_2 in Porcine Coronary Artery, 1654
Myocardial Lactate Release During Ischemia in Swine: Relation to Regional Blood Flow, 1948
Tolerance of the Hypertrophic Heart to Ischemia: Studies in Compensated and Failing Dog Hearts With Pressure Overload Hypertrophy, 1644
GR 32191
Preliminary Clinical Studies With Thromboxane Synthase Inhibitors and Thromboxane Receptor Blockers: A Review, I-69
Growth
Doppler Studies of Vena Cava Flows in Human Fetuses: Insights Into Normal and Abnormal Cardiac Physiology, 498

H

Heart defects
Microcinephotography of the Developing Heart in Neural Crest-Ablated Chick Embryos, 1047
Heart disease
Circulatory Regulation at Rest and Exercise and the Functional Assessment of Patients With Congestive Heart Failure, II-5
Coronary Reserve Is Depressed in Postmyocardial Infarction Reactive Cardiac Hypertrophy, 238
Heart enlargement
Mildly Dilated Congestive Cardiomyopathy: Use of Prospective Diagnostic Criteria and Description of the Clinical Course Without Heart Transplantation, 506
Heart failure
Abnormal Intracellular Calcium Handling, a Major Cause of Systolic and Diastolic Dysfunction in Ventricular Myocardium From Patients With Heart Failure, III-21
Abnormalities of Diastolic Function as a Potential Cause of Exercise Intolerance in Chronic Heart Failure, III-78
Circulatory Regulation at Rest and Exercise and the Functional Assessment of Patients With Congestive Heart Failure, II-5
Comparative Hemodynamic Effects of Procainamide, Tocainide, and Encainide in Severe Chronic Heart Failure, 860
Diastolic Dysfunction and Congestive Heart Failure, III-1
Diminished β-Adrenergic Receptor Responsiveness and Cardiac Dilation in Hearts of Myopathic Syrian Hamsters (BIO 53.58) Are Associated With a Functional Abnormality of the G Stimulatory Protein, 1341
Evaluation of Severity of Heart Failure Using Ventilatory Gas Analysis, II-31
Mildly Dilated Congestive Cardiomyopathy: Use of Prospective Diagnostic Criteria and Description of the Clinical Course Without Heart Transplantation, 506
Neurotransmitter Depletion Compromises the Ability of Indirect-Acting Amines to Provide Inotropic Support in the Failing Human Heart, 929
Review of Clinical Experience With Xamoterol: Effects on Exercise Capacity and Symptoms in Heart Failure, III-93
Tolerance of the Hypertrophic Heart to Ischemia: Studies in Compensated and Failing Dog Hearts With Pressure Overload Hypertrophy, 1644
Heart rate
Early Alterations of the Baroreceptor Control of Heart Rate in Patients With Acute Myocardial Infarction, 939
Spectral Characteristics of Heart Rate Variability Before and During Postural Tilt: Relations to Aging and Risk of Syncope, 1803
Heart transplantation
Early After Heart Transplantation, 72
Electrocardiographic Changes Suggestive of Myocardial Ischemia Elicited by Dipyridamole Infusion in Acute Rejection
Electrophysiological Effects of Adenosine in the Transplanted Human Heart: Evidence of Supersensitivity, 821
Exercise Capacity for Survivors of Cardiac Transplantation or Sustained Medical Therapy for Stable Heart Failure, 78
Fibrosis in the Transplanted Heart and Its Relation to Donor Ischemic Time: Assessment With Polarized Light Microscopy and Digital Image Analysis, 949
Interstudy Variability of Coronary Flow Reserve: Influence of Heart Rate, Arterial Pressure, and Ventricular Preload, 1319
Recovery of a Normal Coronary Vascular Reserve After Rejection Therapy in Acute Human Cardiac Allograft Rejection, 1312
Serial Measurement of Integrated Ultrasonic Backscatter in Human Cardiac Allografts for the Recognition of Acute Rejection, 829
Three-Dimensional Left Ventricular Midwall Dynamics in the Transplanted Human Heart, 1837
Hematocrit
Relation of Blood Viscosity to Demographic and Physiologic Variables and to Cardiovascular Risk Factors in Apparently Normal Adults, 107
Hemodynamics
Factors Associated With Pericardial Effusion in Acute Q Wave Myocardial Infarction, 477
Hemodynamic Changes in the Peripheral Circulation After Repeat Low Density Lipoprotein Apheresis in Familial Hypercholesterolemia, 610
Interstudy Variability of Coronary Flow Reserve: Influence of Heart Rate, Arterial Pressure, and Ventricular Preload, 1319
High-density lipoproteins
Black-White Differences in Exercise Blood Pressure: The Lipid Research Clinics Program Prevalence Study, 1568
Body Fat Distribution and Male/Female Differences in Lipids and Lipoproteins, 1498
Lipoprotein and Oxygen Transport Alterations in Passive Smoking Preadolescent Children: The MCV Twin Study, 586
High-energy phosphates
Tolerance of the Hypertrophic Heart to Ischemia: Studies in Compensated and Failing Dog Hearts With Pressure Overload Hypertrophy, 1644
High-fidelity dynamic arterial pressure recording
Continuous 24-Hour Assessment of the Neural Regulation of Systemic Arterial Pressure and RR Variabilities in Ambulant Subjects, 537
Histamine
Effects of H_1-Receptor Stimulation on Coronary Arterial Diameter and Coronary Hemodynamics in Humans, 65
Histochemistry
Skeletal Muscle Biochemistry and Histology in Ambulatory Patients With Long-term Heart Failure, 518
Holter monitoring
Heart Failure With Normal Ejection Fraction: The V-HeFT Study, III-48
Hypercholesterolemia
Endothelium-Dependent Vascular Relaxation Is Abnormal in the Coronary Microcirculation of Atherosclerotic Primates, 1586
Hyperemia
Detrimental Sequelae on the Hemodynamics of the Upper Left Limb After Subclavian Flap Angioplasty in Infancy, 996
Hypereosinophilia
Eosinophils From Hypereosinophilic Patients Damage Endocardium of Isolated Feline Heart Muscle Preparations, 1081
Hyperinsulinemia
Effects of Insulin on Vasoconstriction Induced by Thromboxane A_2 in Porcine Coronary Artery, 1654
Hypertension
Autonomic Function in Hypertension: Are There Racial Differences? 1305

Circadian Blood Pressure Changes and Left Ventricular Hypertrophy in Essential Hypertension, 528
Controlled Trial of Aerobic Exercise in Hypertension, 1560
Physiological and Immunopathological Consequences of Active Immunization of Spontaneously Hypertensive and Normotensive Rats Against Murine Renin, 1899
Relation of Left Ventricular Hemodynamic Load and Contractile Performance to Left Ventricular Mass in Hypertension, 25
Renal and Hemodynamic Effects of Intravenous Fenoldopam Versus Nitroprusside in Severe Hypertension, 970

Hypertrophic cardiomyopathy
Regional Left Ventricular Nonuniformity: Effects on Left Ventricular Diastolic Function in Ischemic Heart Disease, Hypertrophic Cardiomyopathy, and the Normal Heart, III-54
Wide-Range Load Shift of Combined Aortic Valvuloplasty-Arterial Vasodilation Slows Isovolumic Relaxation of the Hypertrophied Left Ventricle, 886

Hypertrophy
Coronary Reserve Is Depressed in Postmyocardial Infarction Reactive Cardiac Hypertrophy, 238
Relation of Left Ventricular Filling Dynamics to Alterations in Load and Compliance in Patients With and Without Pressure-Overload Hypertrophy, 101
Relation of Left Ventricular Hemodynamic Load and Contractile Performance to Left Ventricular Mass in Hypertension, 25
Tolerance of the Hypertrophic Heart to Ischemia: Studies in Compensated and Failing Dog Hearts With Pressure Overload Hypertrophy, 1644

I

Iloprost
Prostacyclin Analogue Iloprost Decreases Thrombolytic Potential of Tissue-Type Plasminogen Activator in Canine Coronary Thrombosis, 1115

Implantable defibrillator
An Analysis of the Cost Effectiveness of the Implantable Defibrillator, 91

Implants, artificial
Transvenous Atrial Septal Defect Occlusion in Piglets With a "Buttoned" Double-Disk Device, 312

Indians, American
Low Incidence of Fatal Coronary Heart Disease in Pima Indians Despite High Prevalence of Non–Insulin-Dependent Diabetes, 987

Indium
Dual Isotope Thallium and Indium Antimyosin SPECT Imaging to Identify Acute Infarct Patients at Further Ischemic Risk, 37

Infants
Evolving Concepts in the Management of Congenital Junctional Ectopic Tachycardia: A Multicenter Study, 1544

Infarctions (see Myocardial Infarctions)
Complete Recovery in Plasma of Enzymes Lost From the Heart After Permanent Coronary Artery Occlusion in the Dog, 649
Factors Associated With Pericardial Effusion in Acute Q Wave Myocardial Infarction, 477
Ventricular Remodeling After Myocardial Infarction: Experimental Observations and Clinical Implications, 1161

Inflammation

Automatic Implantable Cardioverter/Defibrillator Discharges and Acute Myocardial Injury, 1482
Behavior of Right and Left Ventricles During Episodes of Variant Angina in Relation to the Site of Coronary Vasospasm, 567
Beneficial Effects of Captopril in Acute Coxsackievirus B_3 Murine Myocarditis, 1039
Diastolic Dysfunction and Congestive Heart Failure, III-1
Diastolic Dysfunction During Acute Cardiac Allograft Rejection, III-66
Effect of Coronary Stenosis on Myocardial Blood Flow During Exercise in the Chronically Pressure-Overloaded Hypertrophied Left Ventricle, 1967
Effects of Long-term Pressure Overload on Regional Myocardial Glucose and Free Fatty Acid Uptake in Rats: A Quantitative Autoradiographic Study, 1353
Effects of Nicardipine on Myocardial Function In Vitro and In Vivo, III-139
Exercise Performance After Repair of Anomalous Origin of the Left Coronary Artery From the Pulmonary Artery, 1287
Mean Transit Time for the Assessment of Myocardial Perfusion by Videodensitometry, 1331
Mechanism of Cocaine-Induced Myocardial Depression in Dogs, 1012
Neurotransmitter Depletion Compromises the Ability of Indirect-Acting Amines to Provide Inotropic Support in the Failing Human Heart, 929
Serial Measurement of Integrated Ultrasonic Backscatter in Human Cardiac Allografts for the Recognition of Acute Rejection, 829
Three-Dimensional Left Ventricular Midwall Dynamics in the Transplanted Human Heart, 1837

Myocytes
Coronary Reserve Is Depressed in Postmyocardial Infarction Reactive Cardiac Hypertrophy, 238

Myoplasmic calcium reuptake
Wide-Range Load Shift of Combined Aortic Valvuloplasty-Arterial Vasodilation Slows Isovolumic Relaxation of the Hypertrophied Left Ventricle, 886

N

Nervous system, parasympathetic
Decreased Magnitude of Heart Rate Spectral Components in Coronary Artery Disease: Its Relation to Angiographic Severity 1217

Nervous system, sympathetic
Autonomic Function in Hypertension: Are There Racial Differences? 1305
Correlation Between In Vivo Transmembrane Action Potential Durations and Activation-Recovery Intervals From Electrograms: Effects of Interventions That Alter Repolarization Time, 281
Is Physiologic Sympathoadrenal Catecholamine Release Exocytotic in Humans? 185
Neurohormonal Activation and the Response to Converting Enzyme Inhibitors in Congestive Heart Failure, III-107
Positron Emission Tomographic Imaging of Cardiac Sympathetic Innervation and Function, 1606

Neurohormonal vasoconstrictor systems
Neurohormonal Activation and the Response to Converting Enzyme Inhibitors in Congestive Heart Failure, III-107

Neutrophils
Mechanisms and Therapy of Myocardial Reperfusion Injury, IV-69

Neutrophils Mo1/Mac-1
Sustained Limitation of Myocardial Reperfusion Injury by a Monoclonal Antibody That Alters Leukocyte Function, 226

Nicardipine
Effects of Nicardipine on Regional Diastolic Left Ventricular Function in Patients With Angina Pectoris, III-148

Nifedipine
Effects of Nifedipine on Left Ventricular Diastolic Function in Patients With Asymptomatic or Minimally Symptomatic Hypertrophic Cardiomyopathy, 593

Nitrates
Combined Effects of Nitrates on the Coronary and Peripheral Circulation in Exercise-Induced Ischemia, 1881

Nitroprusside
Effects of Nitroprusside on Myocardial Blood Flow and Oxygen Consumption in Conscious Lambs With an Aortopulmonary Left-to-Right Shunt, 319
Renal and Hemodynamic Effects of Intravenous Fenoldopam Versus Nitroprusside in Severe Hypertension, 970

Non–Q wave infarction
Lack of Diurnal Variation in the Onset of Non–Q Wave Infarction, 548

No-reflow infarction
Myocardial Reperfusion Injury: Histopathological Effects of Perfluorochemical, IV-57

Norepinephrine
Involvement of Endothelin in the Regulation of Human Vascular Tonus: Potent Vasoconstrictor Effect and Existence in Endothelial Cells, 1874
Neurotransmitter Depletion Compromises the Ability of Indirect-Acting Amines to Provide Inotropic Support in the Failing Human Heart, 929
Sympathoinhibitory Effects of Atrial Natriuretic Factor in Normal Humans, 1860

O

Obesity
Body Fat Distribution and Male/Female Differences in Lipids and Lipoproteins, 1498
Relation of Blood Viscosity to Demographic and Physiologic Variables and to Cardiovascular Risk Factors in Apparently Normal Adults, 107

Occlusion
Alteration of Endothelium-Dependent Distribution of Myocardial Blood Flow After Coronary Occlusion and Reperfusion, 1928
Pathophysiological Actions of Thromboxane A_2 and Their Pharmacological Antagonism by Thromboxane Receptor Blockade With GR32191, I-42

Oncogene
Cardiac Myocytes as Targets for the Action of Peptide Growth Factors, 1443

Ouabain
Carotid Sinus Baroreceptor Sensitivity in Experimental Heart Failure, 1959
Flunarizine Allows Differentiation Between Mechanisms of Arrhythmias in the Intact Heart, 343

Outer media
Restenosis After Percutaneous Transluminal Coronary Angioplasty—Anatomic and Pathophysiological Mechanisms: Strategies for Prevention, IV-2

Oxygen
Benefit of Exercise Conditioning for Patients With Peripheral Arterial Disease, 602
Effects of Nitroprusside on Myocardial Blood Flow and Oxygen Consumption in Conscious Lambs With an Aortopulmonary Left-to-Right Shunt, 319
Gas Exchange Theory and the Lactic Acidosis (Anaerobic) Threshold, II-14
Hemodynamic Mechanisms of Antianginal Action of Calcium Channel Blocker Nisoldipine in Dynamic Exercise-Induced Angina, 1887

P

Pacing
Effect of Asynchrony on Left Ventricular Relaxation, III-41

Partial agonist
Review of Clinical Experience With Xamoterol: Effects on Exercise Capacity and Symptoms in Heart Failure, III-93

Passive flow effect
Autoregulation of Cardiac Output by Passive Elastic Characteristics of the Vascular Capacitance System, 360
Peptides
Inhibition of Platelet–Vessel Wall Interaction: Platelet Receptors, Monoclonal Antibodies, and Synthetic Peptides, I-35
Serum Aminoterminal Type III Procollagen Peptide Reflects Repair After Acute Myocardial Infarction, 52
Percutaneous ablation
Transcoronary Chemical Ablation of Atrioventricular Conduction, 757
Percutaneous transluminal coronary angioplasty
A Controlled Trial of Corticosteroids to Prevent Restenosis After Coronary Angioplasty, 1753
Comparison of Immediate Invasive, Delayed Invasive, and Conservative Strategies After Tissue-Type Plasminogen Activator: Results of the Thrombolysis in Myocardial Infarction (TIMI) Phase II-A Trial, 1457
Emergency "Rescue" Percutaneous Transluminal Coronary Angioplasty After Failed Thrombolysis With Streptokinase: Early and Late Results, IV-51
Influence of Coronary Occlusion During PTCA on End-Systolic and End-Diastolic Pressure-Volume Relations in Humans, 447
Laser Balloon Angioplasty: A New Approach to Abrupt Coronary Occlusion and Chronic Restenosis, IV-101
Prediction of Acute Closure in Percutaneous Transluminal Coronary Angioplasty, IV-5
Perfluorochemicals
Mechanisms and Therapy of Myocardial Reperfusion Injury, IV-69
Myocardial Dysfunction During Percutaneous Transluminal Coronary Angioplasty, IV-14
Myocardial Reperfusion Injury: Histopathological Effects of Perfluorochemical, IV-57
Perfluorochemical Perfusion During Coronary Angioplasty in Unstable and High-Risk Patients, IV-27
Perhexiline maleate
Efficacy and Safety of Perhexiline Maleate in Refractory Angina: A Double-Blind Placebo-Controlled Clinical Trial of a Novel Antianginal Agent, 1260
Pericardium
Factors Associated With Pericardial Effusion in Acute Q Wave Myocardial Infarction, 477
The Dependence of the Time Constant of Left Ventricular Isovolumic Relaxation (τ) on Pericardial Pressure, 1071
Peripheral blood flow
Benefit of Exercise Conditioning for Patients With Peripheral Arterial Disease, 602
Peripheral vascular disease
Directional Atherectomy: New Approaches for Treatment of Obstructive Coronary and Peripheral Vascular Disease, IV-79
Peripheral vasculature
Fluorescence-Guided Laser-Assisted Balloon Angioplasty in Patients With Femoropopliteal Occlusions, 143
Pertussis toxin
Pertussis Toxin Treatment of Whole Blood: A Novel Approach to Assess G Protein Function in Congestive Heart Failure, 1198
Phentolamine
Autonomic Function in Hypertension: Are There Racial Differences? 1305
Indirect Evidence for Release of Endothelium-Derived Relaxing Factor in Human Forearm Circulation In Vivo: Blunted Response in Essential Hypertension, 1762
Photocoagulation
Laser Balloon Angioplasty: A New Approach to Abrupt Coronary Occlusion and Chronic Restenosis, IV-101
Plasma norepinephrine
Effects of Benazeprilat on Left Ventricular Systolic and Diastolic Function and Neurohumoral Status in Patients With Ischemic Heart Disease, III-123
Plasma proteins
Relation of Blood Viscosity to Demographic and Physiologic Variables and to Cardiovascular Risk Factors in Apparently Normal Adults, 107
Platelets
Are There Markers of the Blood–Vessel Wall Interaction and of Thrombus Formation That Can Be Used Clinically? I-28
Aurintricarboxylic Acid in a Canine Model of Coronary Artery Thrombosis, 1106
Biosynthesis and Pharmacological Modulation of Thromboxane in Humans, I-12
Comparison of Low-Dose Aspirin and Coronary Vasodilators in Acute Unstable Angina, I-4
^{111}In Platelet Imaging of Left Ventricular Thrombi: Predictive Value for Systemic Emboli, 1182
Increased Platelet Thromboxane A_2/Prostaglandin H_2 Receptors in Patients With Acute Myocardial Infarction, 212
Inhibition of Platelet–Vessel Wall Interaction: Platelet Receptors, Monoclonal Antibodies, and Synthetic Peptides, I-35
Pathogenetic Components of Acute Ischemic Syndromes: Focus on Acute Ischemic Stimuli, I-1
Pathophysiological Actions of Thromboxane A_2 and Their Pharmacological Antagonism by Thromboxane Receptor Blockade With GR32191, I-42
Platelets, Blood Flow, and the Vessel Wall, I-24
Preliminary Assessment of a Novel Thromboxane A_2 Receptor–Blocking Drug, GR32191, in Healthy Subjects, I-53
Prevention of Platelet-Rich Arterial Thrombosis by Selective Thrombin Inhibition, 219
Prostacyclin Analogue Iloprost Decreases Thrombolytic Potential of Tissue-Type Plasminogen Activator in Canine Coronary Thrombosis, 1115
Unstable Angina Pectoris: Platelet Behavior and Prognosis in Progressive Angina and Intermediate Coronary Syndrome, I-16
Population studies
Resting Electrocardiographic Abnormalities Suggestive of Asymptomatic Ischemic Heart Disease Associated With Non–Insulin-Dependent Diabetes Mellitus in a Defined Population, 899
Positron emission tomography
Positron Emission Tomographic Imaging of Cardiac Sympathetic Innervation and Function, 1606
Validation of [1-^{11}C]Acetate as a Tracer for Noninvasive Assessment of Oxidative Metabolism With Positron Emission Tomography in Normal, Ischemic, Postischemic, and Hyperemic Canine Myocardium, 1594
Potassium, dietary
Effect of Dietary Potassium on Blood Pressure, Renal Function, Muscle Sympathetic Nerve Activity, and Forearm Vascular Resistance and Flow in Normotensive and Borderline Hypertensive Humans, 173
Power spectrum
Continuous 24-Hour Assessment of the Neural Regulation of Systemic Arterial Pressure and RR Variabilities in Ambulant Subjects, 537
Decreased Magnitude of Heart Rate Spectral Components in Coronary Artery Disease: Its Relation to Angiographic Severity, 1217
Premature ventricular complex
Premature Ventricular Complex Morphology: A Marker for Left Ventricular Structure and Function, 1245
Pressure-volume relations
Influence of Coronary Occlusion During PTCA on End-Systolic and End-Diastolic Pressure-Volume Relations in Humans, 447
Simultaneous Conductance Catheter and Dimension Assessment of Left Ventricle Volume in the Intact Animal, 638
Proarrhythmias
Double-Wave Reentry As a Mechanism of Acceleration of Ventricular Tachycardia, 1633
Procainamide
Comparative Hemodynamic Effects of Procainamide, Tocainide, and Encainide in Severe Chronic Heart Failure, 860

Procollagen
Serum Aminoterminal Type III Procollagen Peptide Reflects Repair After Acute Myocardial Infarction, 52
Prognosis
Heart Failure With Normal Ejection Fraction: The V-HeFT Study, III-48
Long-term Outcome of Patients After Percutaneous Transluminal Coronary Angioplasty, IV-9
Propranolol
Assessment of Left Ventricular Relaxation by Doppler Echocardiography: Comparison of Isovolumic Relaxation Time and Transmitral Flow Velocities With Time Constant of Isovolumic Relaxation, 260
Effect of Intravenous Propranolol on Coronary Vasomotion at Rest and During Dynamic Exercise in Patients With Coronary Artery Disease, 1225
Prospective studies
Chest Pain and Coronary Heart Disease Mortality Among Older Men and Women in Three Communities, 437
Prostaglandins
Indirect Evidence for Release of Endothelium-Derived Relaxing Factor in Human Forearm Circulation In Vivo: Blunted Response in Essential Hypertension, 1762
Prostacyclin Analogue Iloprost Decreases Thrombolytic Potential of Tissue-Type Plasminogen Activator in Canine Coronary Thrombosis, 1115
Prostaglandin I_2 Half-life Regulated by High Density Lipoprotein Is Decreased in Acute Myocardial Infarction and Unstable Angina Pectoris, 1784
Prostaglandin Redirection by Thromboxane Synthetase Inhibition: Attenuation of Myocardial Stunning in Canine Heart, 369
Prostheses
Vascular Stenting in Normal and Atherosclerotic Rabbits: Studies of the Intravascular Endoprosthesis of Titanium-Nickel–Alloy, 667
Proximal obstruction
Computerized Tabulation of Cine Coronary Angiograms: Its Implication for Results of Randomized Trials, 1992
Pulmonary capillary wedge pressure
Influence of the Pericardium and Ventricular Interdependence on Left Ventricular Diastolic and Systolic Function in Patients With Heart Failure, III-15

Q

Q wave
Factors Associated With Pericardial Effusion in Acute Q Wave Myocardial Infarction, 477
QT intervals
Paradoxical Effects of Exercise on the QT Interval in Patients With Polymorphic Ventricular Tachycardia Receiving Type Ia Antiarrhythmic Agents, 14
Quinidine
Frequency-Dependent Effects of Quinidine on the Ventricular Action Potential and QRS Duration in Humans, 790

Radiofrequency
In Vivo Quantitative Ultrasonic Evaluation of Myocardial Fibrosis in Humans, 58
Radioisotopes
Behavior of Right and Left Ventricles During Episodes of Variant Angina in Relation to the Site of Coronary Vasospasm, 567
Radionuclide ventriculography
Effect of Acute Angiotensin Converting Enzyme Inhibition on Left Ventricular Filling in Patients With Congestive Heart Failure: Relation to Right Ventricular Volumes, III-115
Effects of Long-term Treatment With Calcium Antagonists on Left Ventricular Diastolic Function in Stable Angina and Heart Failure, III-130
Receptors, α-adrenergic
α-Adrenergic Mechanisms in Myocardial Ischemia, 1
Receptors, β-adrenergic
Effects of Calcium Antagonists on β-Receptors of Cultured Cardiac Myocytes Isolated From Neonatal Rat Ventricle, 1401
Reentry subtype
Ventricular Reentry Around a Fixed Barrier: Resetting With Advancement in an In Vitro Model, 267
Refractory period
Frequency-Dependent Effects of Quinidine on the Ventricular Action Potential and QRS Duration in Humans, 790
Regional myocardial oxygen consumption
Validation of [1-^{11}C]Acetate as a Tracer for Noninvasive Assessment of Oxidative Metabolism With Positron Emission Tomography in Normal, Ischemic, Postischemic, and Hyperemic Canine Myocardium, 1594
Regional myocardial perfusion
Thallium 201 Kinetics in Stunned Myocardium Characterized by Severe Postischemic Systolic Dysfunction, 1622
Regional wall motion abnormalities
Do Changes in Pulmonary Capillary Wedge Pressure Adequately Reflect Myocardial Ischemia During Anesthesia? A Correlative Preoperative Hemodynamic, Electrocardiographic, and Transesophageal Echocardiographic Study, 865
Regurgitant jet direction
Value of Acceleration Flows and Regurgitant Jet Direction by Color Doppler Flow Mapping in the Evaluation of Mitral Valve Prolapse, 879
Relaxation
Effect of Asynchrony on Left Ventricular Relaxation, III-41
Renal function
Renal and Hemodynamic Effects of Intravenous Fenoldopam Versus Nitroprusside in Severe Hypertension, 970
Thromboxane Receptor Blockade Attenuates the Toxic Effect of Cyclosporine in Experimental Renal Transplantation, I-61
Renin-angiotensin system
Assessment of Renin Dependency of Hypertension With a Dipeptide Renin Inhibitor, 1768
Neurohormonal Activation and the Response to Converting Enzyme Inhibitors in Congestive Heart Failure, III-107
Reperfusion
Antiplatelet Antibody [7E3 F(ab′)$_2$] Prevents Rethrombosis After Recombinant Tissue-Type Plasminogen Activator–Induced Coronary Artery Thrombolysis in a Canine Model, 617
Mechanisms and Therapy of Myocardial Reperfusion Injury, IV-69
Occurrence of Oxidative Stress During Reperfusion of the Human Heart, 201
Prostaglandin Redirection by Thromboxane Synthetase Inhibition: Attenuation of Myocardial Stunning in Canine Heart, 369
Relations of the Myocardial Imaging Agents ^{99m}Tc-MIBI and ^{201}Tl to Myocardial Blood Flow in a Canine Model of Myocardial Ischemic Insult, 289
Tolerance of the Hypertrophic Heart to Ischemia: Studies in Compensated and Failing Dog Hearts With Pressure Overload Hypertrophy, 1644
Repolarization
Correlation Between In Vivo Transmembrane Action Potential Durations and Activation-Recovery Intervals From Electrograms: Effects of Interventions That Alter Repolarization Time, 281
Emergency "Rescue" Percutaneous Transluminal Coronary Angioplasty After Failed Thrombolysis With Streptokinase: Early and Late Results, IV-51
Resection
Detrimental Sequelae on the Hemodynamics of the Upper Left Limb After Subclavian Flap Angioplasty in Infancy, 996

Resetting response
Ventricular Reentry Around a Fixed Barrier: Resetting With Advancement in an In Vitro Model, 267
Resistance vessels
Endothelium-Dependent Dilation of the Coronary Microvasculature Is Impaired in Dilated Cardiomyopathy, 772
Restenoses
Left-to-Right Atrial Shunting After Percutaneous Mitral Valvuloplasty: Incidence and Long-term Hemodynamic Follow-up, 1190
Percutaneous Coronary Excimer Laser Angioplasty in Patients With Stable and Unstable Angina Pectoris: Acute Results and Incidence of Restenosis During 6-Month Follow-up, 1849
Trapidil in Preventing Restenosis After Balloon Angioplasty in the Atherosclerotic Rabbit, 1089
Vascular Stenting in Normal and Atherosclerotic Rabbits: Studies of the Intravascular Endoprosthesis of Titanium-Nickel–Alloy, 667
Right atrial pressure
Influence of the Pericardium and Ventricular Interdependence on Left Ventricular Diastolic and Systolic Function in Patients With Heart Failure, III-15
Risk factors
Low Incidence of Fatal Coronary Heart Disease in Pima Indians Despite High Prevalence of Non–Insulin-Dependent Diabetes, 987
Prediction of Angiographic Change in Native Human Coronary Arteries and Aortocoronary Bypass Grafts: Lipid and Nonlipid Factors, 470
Risk stratification
Premature Ventricular Complex Morphology: A Marker for Left Ventricular Structure and Function, 1245
Ristocetin
Effects of Desmopressin Acetate on Platelet Aggregation, von Willebrand Factor, and Blood Loss After Cardiac Surgery With Extracorporeal Circulation, 872

S

Sarcoplasmic reticulum
Effects of Caffeine and Ryanodine on Delayed Afterdepolarizations and Sustained Rhythmic Activity in 1-Day-Old Myocardial Infarction in the Dog, 1393
Segmental contractile function

Detrimental Sequelae on the Hemodynamics of the Upper Left Limb After Subclavian Flap Angioplasty in Infancy, 996

Subendocardial blood flow
Myocardial Lactate Release During Ischemia in Swine: Relation to Regional Blood Flow, 1948

Supraventricular tachycardia
Antiarrhythmic Actions of Diltiazem During Experimental Atrioventricular Reentrant Tachycardias: Importance of Use-Dependent Calcium Channel–Blocking Properties, 334
Evolving Concepts in the Management of Congenital Junctional Ectopic Tachycardia: A Multicenter Study, 1544

Surgery
Calcium Attenuates Epinephrine's β-Adrenergic Effects in Postoperative Heart Surgery Patients, 196
Intraoperative Doppler Color Flow Mapping for Decision-Making in Valve Repair for Mitral Regurgitation: Technique and Results in 100 Patients, 556
Modification of Sinus Node Function by Epicardial Laser Irradiation in Dogs, 350

Sympathetic activity
Continuous 24-Hour Assessment of the Neural Regulation of Systemic Arterial Pressure and RR Variabilities in Ambulant Subjects, 537

Syncope
Spectral Characteristics of Heart Rate Variability Before and During Postural Tilt: Relations to Aging and Risk of Syncope, 1803

Systolic function
Alterations in Left Ventricular Diastolic Function in Chronic Ischemic Heart Failure: Assessment by Radionuclide Angiography, III-71

T

Tachycardias
Carotid Sinus Baroreceptor Sensitivity in Experimental Heart Failure, 1959
Modification of Sinus Node Function by Epicardial Laser Irradiation in Dogs, 350
Paradoxical Narrowing of Atherosclerotic Coronary Arteries Induced by Increases in Heart Rate, 850

Tachyphylaxis
Effects of the β_1-Adrenergic Receptor Partial Agonist Xamoterol on Left Ventricular Diastolic Function: An Evaluation After 1–6 Years of Oral Therapy, III-87

Technetium 99m
Automatic Implantable Cardioverter/Defibrillator Discharges and Acute Myocardial Injury, 1482
Redistribution of Regional and Organ Blood Volume and Effect on Cardiac Function in Relation to Upright Exercise Intensity in Healthy Human Subjects, 1550
Relations of the Myocardial Imaging Agents ^{99m}Tc-MIBI and ^{201}Tl to Myocardial Blood Flow in a Canine Model of Myocardial Ischemic Insult, 289

Tetralogy of Fallot
Effect of Right Ventricular Anatomy on the Cardiopulmonary Response to Exercise: Implications for the Fontan Procedure, 1811

Thallium
Dual Isotope Thallium and Indium Antimyosin SPECT Imaging to Identify Acute Infarct Patients at Further Ischemic Risk, 37
Exercise Performance After Repair of Anomalous Origin of the Left Coronary Artery From the Pulmonary Artery, 1287
Prevalence and Prognostic Significance of Exercise-Induced Silent Myocardial Ischemia Detected by Thallium Scintigraphy and Electrocardiography in Asymptomatic Volunteers, 428
Relations of the Myocardial Imaging Agents ^{99m}Tc-MIBI and ^{201}Tl to Myocardial Blood Flow in a Canine Model of Myocardial Ischemic Insult, 289
Thallium 201 Kinetics in Stunned Myocardium Characterized by Severe Postischemic Systolic Dysfunction, 1622
The Safety of Intravenous Dipyridamole Thallium Myocardial Perfusion Imaging, 1205

Thiazolylethylamine
Alteration of Endothelium-Dependent Distribution of Myocardial Blood Flow After Coronary Occlusion and Reperfusion, 1928

Thrombins
Long-term Impairment of Endothelium-Dependent Relaxations to Aggregating Platelets After Reperfusion Injury in Canine Coronary Arteries, 1921

Thromboembolism
Role of Platelets and Antiplatelet Agents in Cerebrovascular Disease: Clues From Trials, I-20

Thrombolysis
Antiplatelet Antibody [7E3 F(ab')$_2$] Prevents Rethrombosis After Recombinant Tissue-Type Plasminogen Activator–Induced Coronary Artery Thrombolysis in a Canine Model, 617
Comparison of Immediate Invasive, Delayed Invasive, and Conservative Strategies After Tissue-Type Plasminogen Activator: Results of the Thrombolysis in Myocardial Infarction (TIMI) Phase II-A Trial, 1457
Conjugation to Antifibrin Fab' Enhances Fibrinolytic Potency of Single-Chain Urokinase Plasminogen Activator, 1974
Interventions in Acute Myocardial Infarction, IV-43
Intravenous Thrombolytic Therapy With a Combination of Single-Chain Urokinase-Type Plasminogen Activator and Recombinant Tissue-Type Plasminogen Activator in Acute Myocardial Infarction, 907
Prostacyclin Analogue Iloprost Decreases Thrombolytic Potential of Tissue-Type Plasminogen Activator in Canine Coronary Thrombosis, 1115
Quantitation of Venous Clot Lysis With the D-Dimer Immunoassay During Fibrinolytic Therapy Requires Correction for Soluble Fibrin Degradation, 1818

Thrombosis
Are There Markers of the Blood–Vessel Wall Interaction and of Thrombus Formation That Can Be Used Clinically?, I-28
Comparison of Low-Dose Aspirin and Coronary Vasodilators in Acute Unstable Angina, I-4
^{111}In Platelet Imaging of Left Ventricular Thrombi: Predictive Value for Systemic Emboli, 1182
Inhibition of Platelet–Vessel Wall Interaction: Platelet Receptors, Monoclonal Antibodies, and Synthetic Peptides, I-35
Long-term Impairment of Endothelium-Dependent Relaxations to Aggregating Platelets After Reperfusion Injury in Canine Coronary Arteries, 1921
Platelets, Blood Flow, and the Vessel Wall, I-24
Prevention of Platelet-Rich Arterial Thrombosis by Selective Thrombin Inhibition, 219

Thromboxane A_2/prostaglandin H_2 receptors
Increased Platelet Thromboxane A_2/Prostaglandin H_2 Receptors in Patients With Acute Myocardial Infarction, 212

Thromboxane receptor antagonists
Preliminary Clinical Studies With Thromboxane Synthase Inhibitors and Thromboxane Receptor Blockers: A Review, I-69

Thromboxane synthase
Biosynthesis and Pharmacological Modulation of Thromboxane in Humans, I-12
Preliminary Clinical Studies With Thromboxane Synthase Inhibitors and Thromboxane Receptor Blockers: A Review, I-69

Thromboxanes
Biosynthesis and Pharmacological Modulation of Thromboxane in Humans, I-12
Comparison of Low-Dose Aspirin and Coronary Vasodilators in Acute Unstable Angina, I-4
Pathogenetic Components of Acute Ischemic Syndromes: Focus on Acute Ischemic Stimuli, I-1

Prostaglandin Redirection by Thromboxane Synthetase Inhibition: Attenuation of Myocardial Stunning in Canine Heart, 369
Thromboxane Receptor Blockade Attenuates the Toxic Effect of Cyclosporine in Experimental Renal Transplantation, I-61
Unstable Angina Pectoris: Platelet Behavior and Prognosis in Progressive Angina and Intermediate Coronary Syndrome, I-16

Thrombus
Characterization of Acute Experimental Left Ventricular Thrombi With Quantitative Backscatter Imaging, 1017

Time-density curve
Mean Transit Time for the Assessment of Myocardial Perfusion by Videodensitometry, 1331

Tissue
Characterization of Acute Experimental Left Ventricular Thrombi With Quantitative Backscatter Imaging, 1017
In Vivo Quantitative Ultrasonic Evaluation of Myocardial Fibrosis in Humans, 58
Serial Measurement of Integrated Ultrasonic Backscatter in Human Cardiac Allografts for the Recognition of Acute Rejection, 829

Tissue-type plasminogen activator
Augmented and Sustained Plasma Concentrations After Intramuscular Injections of Molecular Variants and Deglycosylated Forms of Tissue-Type Plasminogen Activators, 1362
Intravenous Thrombolytic Therapy With a Combination of Single-Chain Urokinase-Type Plasminogen Activator and Recombinant Tissue-Type Plasminogen Activator in Acute Myocardial Infarction, 907
Prostacyclin Analogue Iloprost Decreases Thrombolytic Potential of Tissue-Type Plasminogen Activator in Canine Coronary Thrombosis, 1115
Quantitation of Venous Clot Lysis With the D-Dimer Immunoassay During Fibrinolytic Therapy Requires Correction for Soluble Fibrin Degradation, 1818

Tocainide
Comparative Hemodynamic Effects of Procainamide, Tocainide, and Encainide in Severe Chronic Heart Failure, 860

Tomography
Dual Isotope Thallium and Indium Antimyosin SPECT Imaging to Identify Acute Infarct Patients at Further Ischemic Risk, 37

Torsion
Noninvasive Quantification of Left Ventricular Rotational Deformation in Normal Humans Using Magnetic Resonance Imaging Myocardial Tagging, 1236

Transcoronary ablation
Transcoronary Chemical Ablation of Atrioventricular Conduction, 757
Do Changes in Pulmonary Capillary Wedge Pressure Adequately Reflect Myocardial Ischemia During Anesthesia? A Correlative Preoperative Hemodynamic, Electrocardiographic, and Transesophageal Echocardiographic Study, 865

Transesophageal echocardiography angioplasty
Detection of Dissection of the Aortic Intima and Media After Angioplasty of Coarctation of the Aorta: An Angiographic, Computer Tomographic, and Echocardiographic Comparative Study, 805

Transforming growth factor β1
Cardiac Myocytes as Targets for the Action of Peptide Growth Factors, 1443

Transient entrainment
Resetting of Ventricular Tachycardia by Single Extrastimuli: Relation to Slow Conduction Within the Reentrant Circuit, 1507

Transient ischemia
Estrogen Modulates Responses of Atherosclerotic Coronary Arteries, 1680

Transvenous defibrillation
Transvenous Defibrillation in Humans via the Coronary Sinus, 1252

Trapidil
Trapidil in Preventing Restenosis After Balloon Angioplasty in the Atherosclerotic Rabbit, 1089

Treadmill exercise
Prevalence and Prognostic Significance of Exercise-Induced Silent Myocardial Ischemia Detected by Thallium Scintigraphy and Electrocardiography in Asymptomatic Volunteers, 428

Tricarboxylic acid cycle flux
Validation of [1-^{11}C]Acetate as a Tracer for Noninvasive Assessment of Oxidative Metabolism With Positron Emission Tomography in Normal, Ischemic, Postischemic, and Hyperemic Canine Myocardium, 1594

Tricuspid atresia
Effect of Right Ventricular Anatomy on the Cardiopulmonary Response to Exercise: Implications for the Fontan Procedure, 1811

Triggered activity
Effects of Caffeine and Ryanodine on Delayed Afterdepolarizations and Sustained Rhythmic Activity in 1-Day-Old Myocardial Infarction in the Dog, 1393

Triglycerides
Relation of Blood Viscosity to Demographic and Physiologic Variables and to Cardiovascular Risk Factors in Apparently Normal Adults, 107

U

U-46619
Preliminary Assessment of a Novel Thromboxane A_2 Receptor–Blocking Drug, GR32191, in Healthy Subjects, I-53

Ultrasound
Application of a New Phased-Array Ultrasound Imaging Catheter in the Assessment of Vascular Dimensions: In Vivo Comparison to Cineangiography, 660
Coronary Artery Imaging With Intravascular High-Frequency Ultrasound, 1575

V

Vagal activity
Continuous 24-Hour Assessment of the Neural Regulation of Systemic Arterial Pressure and RR Variabilities in Ambulant Subjects, 537

Valves
Determinants of Survival and Left Ventricular Performance After Mitral Valve Replacement, 1173
Experimental Balloon Valvuloplasty of Fibrotic and Calcific Mitral Valves, 1005
Improvement in Mitral Flow Dynamics During Exercise After Percutaneous Transvenous Mitral Commissurotomy: Noninvasive Evaluation Using Continuous Wave Doppler Technique, 46
Intraoperative Doppler Color Flow Mapping for Decision-Making in Valve Repair for Mitral Regurgitation: Technique and Results in 100 Patients, 556
Left-to-Right Atrial Shunting After Percutaneous Mitral Valvuloplasty: Incidence and Long-term Hemodynamic Follow-up, 1190
Quantification of Jet Flow by Momentum Analysis: An In Vitro Color Doppler Flow Study, 247
Value of Acceleration Flows and Regurgitant Jet Direction by Color Doppler Flow Mapping in the Evaluation of Mitral Valve Prolapse, 879

Vascular compliance
Autoregulation of Cardiac Output by Passive Elastic Characteristics of the Vascular Capacitance System, 360

Vascular intervention
Directional Atherectomy: New Approaches for Treatment of Obstructive Coronary and Peripheral Vascular Disease, IV-79

Vascular permeability
Factors Associated With Pericardial Effusion in Acute Q Wave Myocardial Infarction, 477

Vasoconstriction
Comparison of Low-Dose Aspirin and Coronary Vasodilators in Acute Unstable Angina, I-4

Pathophysiological Actions of Thromboxane A_2 and Their Pharmacological Antagonism by Thromboxane Receptor Blockade With GR32191, I-42

Vasodilation
Alteration of Endothelium-Dependent Distribution of Myocardial Blood Flow After Coronary Occlusion and Reperfusion, 1928
Autoradiographic Mapping of Calcitonin Gene-Related Peptide Receptors in Human and Guinea Pig Hearts, 741
Effect of Acute Angiotensin Converting Enzyme Inhibition on Left Ventricular Filling in Patients With Congestive Heart Failure: Relation to Right Ventricular Volumes, III-115
Heart Failure With Normal Ejection Fraction: The V-HeFT Study, III-48

Vasopressin
Effects of a Vasopressin Antagonist With Combined Antipressor and Antiantidiuretic Activities in Rats With Left Ventricular Dysfunction, 308
Endothelial Modulation of the Coronary Vasculature in Vessels Perfused via Mature Collaterals, 1938

Vasospasm
Autoradiographic Mapping of Calcitonin Gene-Related Peptide Receptors in Human and Guinea Pig Hearts, 741
Estrogen Modulates Responses of Atherosclerotic Coronary Arteries, 1680
Long-term Impairment of Endothelium-Dependent Relaxations to Aggregating Platelets After Reperfusion Injury in Canine Coronary Arteries, 1921

Venous retroperfusion
Coronary Venous Synchronized Retroperfusion During Percutaneous Transluminal Angioplasty of Left Anterior Descending Coronary Artery, IV-35

Venous return
Autoregulation of Cardiac Output by Passive Elastic Characteristics of the Vascular Capacitance System, 360

Venous thrombosis
Quantitation of Venous Clot Lysis With the D-Dimer Immunoassay During Fibrinolytic Therapy Requires Correction for Soluble Fibrin Degradation, 1818

Ventricle, single
Effect of Right Ventricular Anatomy on the Cardiopulmonary Response to Exercise: Implications for the Fontan Procedure, 1811
Ventricular Volume Characteristics in Double-Inlet Left Ventricle Before and After Septation, 1537

Ventricular arrhythmias
Sudden Death After Repair of Double-Outlet Right Ventricle, 128

Ventricular contraction
Three-Dimensional Left Ventricular Midwall Dynamics in the Transplanted Human Heart, 1837

Ventricular fibrillation
Buffer Agents Do Not Reverse Intramyocardial Acidosis During Cardiac Resuscitation, 1660
Early Afterdepolarizations Induced In Vivo by Reperfusion of Ischemic Myocardium: A Possible Mechanism for Reperfusion Arrhythmias, 1911
Effect of Duration of Ventricular Fibrillation on Defibrillation Efficacy in Humans, 1477
Effect of Epicardial Patch Electrodes on Transthoracic Defibrillation, 1409
Transvenous Defibrillation in Humans via the Coronary Sinus, 1252

Ventricular function
Behavior of Right and Left Ventricles During Episodes of Variant Angina in Relation to the Site of Coronary Vasospasm, 567
Effect of Acute Angiotensin Converting Enzyme Inhibition on Left Ventricular Filling in Patients With Congestive Heart Failure: Relation to Right Ventricular Volumes, III-115
Effects of a Vasopressin Antagonist With Combined Antipressor and Antiantidiuretic Activities in Rats With Left Ventricular Dysfunction, 308
Effects of Nicardipine on Myocardial Function In Vitro and In Vivo, III-139
Effects of Nifedipine on Left Ventricular Diastolic Function in Patients With Asymptomatic or Minimally Symptomatic Hypertrophic Cardiomyopathy, 593
Effects of Nitroprusside on Myocardial Blood Flow and Oxygen Consumption in Conscious Lambs With an Aortopulmonary Left-to-Right Shunt, 319
Quantification and Validation of Left Ventricular Wall Thickening by a Three-Dimensional Volume Element Magnetic Resonance Imaging Approach, 297
Relation of Left Ventricular Filling Dynamics to Alterations in Load and Compliance in Patients With and Without Pressure-Overload Hypertrophy, 101
Reversible Segmental Left Ventricular Dysfunction After Coronary Angioplasty, 1210
Simultaneous Conductance Catheter and Dimension Assessment of Left Ventricle Volume in the Intact Animal, 638
Ventricular Volume Characteristics in Double-Inlet Left Ventricle Before and After Septation, 1537

Ventricular receptors
Prolonged Duration of Myocardial Ischemia in Patients With Coronary Heart Disease and Impaired Cardiopulmonary Baroreceptor Sensitivity, 1792

Ventricular remodeling
Diastolic Dysfunction and Congestive Heart Failure, III-1

Ventricular suction
Physiological Early Diastolic Intraventricular Pressure Gradient Is Lost During Acute Myocardial Ischemia, 1688

Ventricular tachycardia
Flunarizine Allows Differentiation Between Mechanisms of Arrhythmias in the Intact Heart, 343
Improving the Predictive Ability of the Signal-Averaged Electrocardiogram With a Linear Logistic Model Incorporating Clinical Variables, 797
Paradoxical Effects of Exercise on the QT Interval in Patients With Polymorphic Ventricular Tachycardia Receiving Type Ia Antiarrhythmic Agents, 14
Resetting of Ventricular Tachycardia by Single Extrastimuli: Relation to Slow Conduction Within the Reentrant Circuit, 1507
Ventricular Reentry Around a Fixed Barrier: Resetting With Advancement in an In Vitro Model, 267

Ventricular wall
Three-Dimensional Left Ventricular Midwall Dynamics in the Transplanted Human Heart, 1837
Ventricular Remodeling After Myocardial Infarction: Experimental Observations and Clinical Implications, 1161

Verapamil
Effects of Calcium Antagonists on β-Receptors of Cultured Cardiac Myocytes Isolated From Neonatal Rat Ventricle, 1401

Vessels
Application of a New Phased-Array Ultrasound Imaging Catheter in the Assessment of Vascular Dimensions: In Vivo Comparison to Cineangiography, 660

Volume loading
Effects of Nitroprusside on Myocardial Blood Flow and Oxygen Consumption in Conscious Lambs With an Aortopulmonary Left-to-Right Shunt, 319
Impact of Fontan Operation on Left Ventricular Size and Contractility in Tricuspid Atresia, 118

von Willebrand factor
Aurintricarboxylic Acid in a Canine Model of Coronary Artery Thrombosis, 1106
Effects of Desmopressin Acetate on Platelet Aggregation, von Willebrand Factor, and Blood Loss After Cardiac Surgery With Extracorporeal Circulation, 872
Inhibition of Platelet–Vessel Wall Interaction: Platelet Receptors, Monoclonal Antibodies, and Synthetic Peptides, I-35

W

Wall tension
Hemodynamic Mechanisms of Antianginal Action of Calcium Channel Blocker Nisoldipine in Dynamic Exercise-Induced Angina, 1887

Weight loss
Changes in Lipoprotein Subfractions During Diet-Induced and Exercise-Induced Weight Loss in Moderately Overweight Men, 1293

Wolff-Parkinson-White syndrome
Effects of Resting Vagal Tone on Accessory Atrioventricular Connections, 86
Importance of Preexcited QRS Morphology During Induced Atrial Fibrillation to the Diagnosis and Localization of Multiple Accessory Pathways, 578

X

Xamoterol
Effects of the β_1-Adrenergic Receptor Partial Agonist Xamoterol on Left Ventricular Diastolic Function: An Evaluation After 1–6 Years of Oral Therapy, III-87
Review of Clinical Experience With Xamoterol: Effects on Exercise Capacity and Symptoms in Heart Failure, III-93
